The Valuation Of Real Estate:

The Valuation of Real Estate Alfred A. Ring, 1963 **The Valuation of Real Estate** Frederick Morrison Babcock, 1932
Some Principles and Problems of Real Estate Valuation Alfred Duncan Bernard, 1913 Real Estate Valuation G. Jason Goddard, 2021-12-15

Real Estate Valuation A Subjective Approach highlights the subjective valuation components of residential and commercial real estate which can lead to a range of acceptable property value conclusions It discusses the causes of housing booms and goes in depth into the heterogeneity of commercial real estate property valuation via examples from owner occupied multifamily residential hotel office retail warehouse condo conversion and mortgage backed security areas of real estate Other topics explored include the role of machine learning and AI in real estate valuation market participant value perceptions and the challenge of time in the valuation process The primary theoretical basis for the range of acceptable values and the subjectivity of property valuation focuses on the work of G L S Shackle from the Austrian School of Economics This illuminating textbook is suitable for undergraduate and master s students of real estate finance and will also be useful for practitioners in residential and commercial real estate **Income Property Valuation** Jeffrey d. Fisher, Robert S. Martin, 2007-12-20

Offering a comprehensive look at the appraisal of real estate income property this textbook explains the importance of projecting income when valuing commercial real estate through the income approach and other approaches to value Ideal for college level real estate classes the text includes Excel templates Instructor Resources and a link to a free trial of ARGUSTM 11 0 PUBLISHER *Real Estate Valuation Theory* Ko Wang, Marvin L. Wolverton, 2002-09-30

Is real property appraisal evolving or have all of the big ideas already been conceived This question has been circulating among the leaders of the Appraisal Institute during the past several annual meetings usually encountering little in the way of satisfying answers This is not too surprising because grand ideas and new knowledge do not typically evolve from off hand conversation They are the product of focused intellectual activity and hours of difficult work This unquenched thirst for new knowledge is the primary reason for assembling this collection of new manuscripts dealing with valuation theory which was financially underwritten by the Appraisal Institute Their generosity and willingness to partner with the American Real Estate Society made this collection of thoughtful and thought provoking essays possible They are the result of a global response to a worldwide call for papers and demonstrate that real estate valuation is indeed an international discipline The United States Australia and New Zealand Southeast Asia the Pacific Rim and Europe are all represented by this impressive collection of authors Together the eighteen essays that make up this volume demonstrate that there are a sufficient number of big ideas to challenge and improve the appraisal profession for years to come Real Estate Valuation Theory is organized around five categories of intellectual contribution to the whole appraiser decision making and valuation accuracy application of nontraditional appraisal techniques such as regression and the minimum variance grid method appraising contaminated property ad valorem tax assessment and new perspectives on traditional appraisal methods

Wilson,2012-02-09 Our purpose in writing this book is multifaceted First this book aims to present a clear understanding of going concern valuations at the same time resolving the current misrepresentations surrounding the issue Additionally this book offers a new set of rules readers can use to determine which property types qualify as going concern valuations and which do not This book presents an understanding that in performing a Going Concern Valuation of properties which are perceived to have a business component it may not be possible to segregate allocate or value the components individually For example when appraising the going concern value of a motel with occupancy of 75% it could be argued and possibly proven that there is a value that can be separated from the overall value or going concern value to the business component On the other hand however appraising that same motel with only 40% occupancy presents a completely different set of circumstances that could easily draw completely opposite conclusions It simply may be a lack of sufficient tools or data to argue and prove that the business component in fact has value separate from the real estate To do so with authority is tantamount to ignorance or arrogance **Real Estate Valuation in Litigation** James D. Eaton,1982
