**Volunteer Tourism** Stephen Wearing, 2001-01-01 Volunteer tourism describes a field of tourism in which travelers visit a destination and take part in projects in the local community. Projects are commonly nature based, people based or involve restoration of buildings and artifacts, e.g. restoration of a Buddhist temple in Mongolia. International Volunteer Tourism K. Borland, A. Adams, 2013-12-18. Designed to promote reflection and better practices among the prospective volunteers and organizers of travel for service experiences. *Volunteer Tourism in the Global South* Wanda Vrasti, 2013. This work explores the increasingly popular phenomenon of volunteer tourism in the Global South, paying particular attention to the governmental rationalities and socio-economic conditions that valorise it as a noble and necessary cultural practice. Combining theoretical research with primary data gathered during volunteering programs in Guatemala and Ghana, the author argues that although volunteer tourism may not trigger social change, provide meaningful encounters with difference or offer professional expertise as the brochure discourse and the scholarly literature on tourism and hospitality often promises, the formula remains a useful strategy for producing the subjects and social relations neoliberalism requires. Vrasti suggests that the value of volunteer tourism should not be assessed in terms of the goods and services it delivers to the global poor but in terms of how well the practice disseminates entrepreneurial styles of feeling and action. Analysing the key effects of volunteer tourism, it is demonstrated that far from being a selfless and history-less rescue act, volunteer tourism is in fact a strategy of power that extends economic rationality, particularly its emphasis on entrepreneurship and competition to the realm of political subjectivity. *Volunteer Tourism in the Global South* provides a unique and innovative analysis of the relationship between the political and personal dimensions of volunteer tourism and will be of great interest to scholars and students of international relations, cultural geography, tourism and development studies.

*Volunteer Tourism* Tabea Herbut,2013-01-03 Master s Thesis from the year 2012 in the subject Sociology Work Education Organisation grade 1 0 Technical University of Munich Lehrstuhl f r Forstwirtschaft und Ressourcenmanagement language English abstract Since the 1970ies volunteer tourism has sparked academic as well as public interest and debate This thesis consists of a concise analysis of current theories and research interests in this field It points out challenges and opportunities of international volunteering using a case study from South Africa especially focusing on the area of research volunteering in a conservation context The analysis of attitudes and perceptions of the volunteer as well as potential benefits

the experience may have on their future life in general and career especially has been carried out by means of online survey Further similarities and differences between general volunteers and research volunteers have been established and analyzed leading to the insight that altruism combined with the desire to travel and experience a different culture are central motivators to both groups and similar perceived benefits are attributed to volunteering This study concludes that research volunteering can be especially beneficial to all parties involved if design and realization of the project are given great consideration and suggests further research into the complex task to develop mutually beneficial volunteering projects despite ongoing commodification of this area of sustainable tourism     Volunteer Tourism Jim Butcher, Peter

Smith,2015-06-05 Just a generation ago the notion that holidays should be invested with ethical and political significance would have sounded odd Today it is part of the lifestyle political landscape Volunteer tourism is indicative of the growth of lifestyle strategies intended to exhibit care and responsibility towards others less fortunate strategies aligned closely with developing one's ethical identity and sense of global responsibility It sits alongside telethons pay per click Fair Trade and ethical consumption generally as a way to make a difference Volunteer tourism involves a personal mission to address the political question of development It draws upon the private virtues of care and responsibility and disavows political narratives beyond this Critics argue that this leaves the volunteers as unwitting carriers of damaging neoliberal or postcolonial assumptions whilst advocates see it as offering creative and practical ways to build a new ethical politics By contrast this volume analyses volunteer tourism as indicative of a retreat from public politics into the realm of private experience and as an expression of diminished political and moral agency This thought provoking book draws on development political and sociological theory and is essential reading for students researchers and academics interested in the phenomenon of volunteer tourism and the politics of lifestyle that it represents     **Managing Volunteers in Tourism**

*Research* Angela M. Benson, 2016-02-24 Volunteer tourism is one of the major growth areas in contemporary tourism where tourists for various reasons seek alternative goodwill experiences and activities An emerging segment of this is Research Volunteer Tourism Research Volunteer Tourism is where volunteers either engage in research themselves or assist others with their research projects The use of volunteers is one of the key mechanisms for research volunteer organizations to meet their goals and therefore they play an important role Volunteers can usually be accommodated within the portfolio of projects and the recruitment of volunteers onto projects can enable the unlocking of money annually from private individuals which provides invaluable funding In addition weeks and months of individuals time is donated to participate in projects and in furthering the sustainability agenda Yet the extent to which the organizations engage with volunteers varies considerably as does the expectation of volunteers in this role This book focuses on the experiences and perspectives of research volunteer tourists to fully explore whether perceptions of what constitutes the concept of volunteering is the same as the organization and whether they perceive themselves in a volunteering role Issues such as payment for experience and what the payment contributes towards are thoroughly explored for the first time This book therefore moves beyond the topics of volunteer motivation providing further understanding and knowledge of volunteer perspectives across different aspects of the volunteering experiences Written by a leading academic in this field this timely book will be of interest to tourism students and academics internationally

**Travel with Purpose** Jeff Blumenfeld, 2019-04-05

Imagine yourself in a schoolroom in one of the most remote regions of one of the most hard to reach countries on earth Nepal The Lower Mustang region to be exact To reach it takes a 14 hour flight from New York to Doha Qatar Then four hours by air to Kathmandu Transfer at one of the world's most dangerous airports to a 90 minute flight to Pokhara followed by a jarring eight hour Jeep ride over a vertiginous dirt road one side is a mountain wall the other side a two hundred foot cliff Finally you arrive but it's not just any schoolroom It has been converted into an operating room so that doctors from New York Eye you may not even have to go to foreign lands as opportunities may exist within your own state Blumenfeld shows readers how to

identify the right location and volunteer situation how to go about planning trips and preparing for activities how to reach out how to help Through vivid examples and first hand stories from both recipients of volunteer work and the volunteers themselves Travel with Purpose may make you rethink your next vacation *Volunteer Tourism, an Ambiguous Phenomenon* Konstantinos Tomazos,2009 One of the more recent forms of tourism to emerge from the continuing fragmentation of tourism into many different forms is what has become known as Volunteer Tourism Although itself taking on a number of variations it is essentially the practice of individuals going on a working holiday and volunteering their labour for worthy causes The concept of volunteer work has existed for several decades since its origins immediately following the First World War but the idea of combining this activity with tourism is relatively new and has already changed considerably over a very short period This thesis reviews the process by which volunteer tourism has developed focusing on its transformation from an individual altruistic endeavour to a more commercial form of conventional tourism As such volunteer tourism has mirrored in many ways the development and commercialisation of opportunities for individuals to engage in ecotourism another form of tourism which also began on a small scale with compassionate and non economic priorities This thesis provides a twin pronged approach to the study of volunteer tourism focusing both on the demand and the supply of volunteer tourism The demand is investigated through an observation of a group of volunteer tourists in Mexico over a three week period and a new conceptualization of participation in volunteer tourism as a balancing act between commitment and hedonistic pursuits is developed This thesis also reviews the growth in number of websites devoted to the various forms of volunteer tourism that now exist and discusses the changes that have taken place in the content and focus of these websites and the organisations they represent over the last two decades In relation to this analysis it also examines the location of destinations which are being made available to volunteer tourists and providing the opportunity to engage in this activity As a part of this analysis the thesis examines the changes in the distribution of these locations and the relationship between location and the relative need of the respective destinations for assistance The current distribution pattern of volunteer tourist opportunities now bears little similarity to the acute need for assistance that one might expect if the real motivation for providing this assistance was altruistic rather than commercial In proposing a new approach of viewing volunteer tourism participation as a balancing act but also by showing that the organizations involved vary in terms of their commitment and expectations this study presents clarification on the role expectations and motivations of the main players in volunteer tourism **The Routledge Handbook of Volunteering in Events, Sport and Tourism** Kirsten Holmes, Leonie Lockstone-Binney, Karen A.
