The Master's Guide to Homebuilding S. Earl Thompson, 2012-10-01 This is the only book in the country that teaches you how to pre plan organize supervise and manage an entire homebuilding operation The book was written as seen through the eyes of a master builder Many well intentioned people professional and novice alike fail in the attempt of homebuilding The main reason for this failure is not having the correct information in your hands that could keep you out of trouble in a timely manner Remember this a little bit of knowledge can be very risky but a lot of knowledge is very rewarding This book is generally for three groups of people The first group are folks that are already in the homebuilding business Maybe they are new to the business and want to add to what they already know They could be construction superintendents who work for homebuilders and want to hone their skills They may decide someday to get into the business themselves The second group with interest are those that want to get into the business Maybe they ve nibbled around the edges of homebuilding but yearned for a good source of fundamental information to give them the confidence they needed in order to make this life altering committment The third group are folks that definitely need this book are those individuals that want to be the builder to build their own home They want the home built their way They want to experience first hand what it s like to be responsible for the entire project Maybe they don t want to be the builder but they want to be educated on how a good home is supposed to be built They will use this information to make sure that their builder does what they are supposed to do They will not be able to be taken advantage of by the builder All processes of building a home are layed out step by step and include the following Pre planning and organization Designing and blueprints Formulating construction costs and budgets Formulating specifications and contracts How to find and pay contractors How to supervise all of the work There is absolutely no reason why your homebuilding experience can t be successful There is absolutely no excuse for not having The Master s Guide to Homebuilding with you at all times This is that one homebuilding source that will keep your buns out of the fire I will meet you at the end of your book reading journey S Earl Thompson      Keith's Magazine on Home Building ,1912
