Safety concerns everybody!

Always follow the instructions in the machine's operator's manual, which is a supplement to this Service Manual.

The Operator's Manual must always be kept in the cab for easy reference.

Volvo designs and manufactures machines with a high level of safety as well as effectiveness. At the same time, it may be noted if anyone who is about to perform service on any of our machines does not read the safety instructions, or does not follow them, e.g., does not replace quickly replace on slippery machine parts instead of using a ladder, grabs a hold of them instead of handles or uses the wrong tools for the job.

In order to maintain safe and effective function, always use the intended and adapted spare parts for the machine (using genuine Volvo spare parts is recommended since they are adapted to the machine for highest safety and quality).

Machines which cause accidents, instead people often do.

A safety-conscious person and a well-maintained machine make for a safe, effective and profitable combination.

Those who do not follow the safety instructions and observe the warnings in this manual must make sure that their work method is safe. Otherwise, there is a great risk of accidents, perhaps even accidents that result in fatalities.

WARNING SYMBOL

This symbol is shown at various points throughout the manual. The appearance of it means "Warning, stay alert! Your safety may be in jeopardy!"

Get to know the capacity and loads of your machine!

Transporting the machine

Loading/unloading machine

- The carrier vehicle shall be securely braked and have its wheels blocked.
- If the machine is driven up, the steering joint shall not be locked.
- If the machine is lifted up on the carrier vehicle, the steering joint must be locked.
- During transport, the machine's steering joint must be locked and the wheels blocked.

Figure 1

1. Steering joint lock

WARNING
If the machine is to be driven from a loading dock onto the platform of a truck trailer or railway car, make sure that the vehicle is securely braked, for example, wheels blocked. Make sure that there is no risk that the vehicle cannot roll even so easy in a dangerous manner when the machine is driven on.

NOTE

Do not forget to unlock the steering joint and secure the steering joint lock in the bracket provided for this purpose next time the machine is used.
