**Perspective** Libuše Dušková, 2015-10-01 The volume presents the author's articles written in the last fifteen years dealing with the interaction between syntax functional sentence perspective information structure and text in present day English. The first and the last two parts frame the content of the volume in treating the role of functional sentence perspective at the syntactic and the textual levels. At the former FSP is investigated as a potential factor of syntactic divergence between English and Czech; at the latter the role of FSP is examined with respect to theme development text build up and style.
