Experimental Psychology: Quantitative experiments: pt. 1. Students' manual. pt. 2. Instructor's manual Edward Bradford Titchener, 1905 The general purpose with which this book has been written is sufficiently indicated by its title I have selected a number of the classical experiments of Experimental Psychology and have tried to present them in such a way that their performance shall have a real disciplinary value for the undergraduate student Within this general purpose my aim has been two fold I have sought to show in the first place that psychology is above the laboratory that we employ our instruments of precision not for their own sake but solely because they help us to a refined and more accurate introspection And secondly just as in my Outline of Psychology and Primer of Psychology I gave the results of experimentation a prominent place in the psychological system so here I have treated the selected experiments not as separate exercises but as points of departure for systematic discussion PsycINFO Database Record c 2005 APA all rights reserved **Science Activities Using the World**

Penick,1987 The Search for Excellence in Science Teaching and Career Awareness was undertaken to recognize programs that have proven to be innovative in leading students to greater career awareness This document lists and explains the criteria for excellence in this search and provides descriptions of the five exemplary programs that were selected Program titles and awarded schools include 1 A Nationally Validated Middle School Science Career Awareness Program Jones Middle School near Columbus Ohio 2 Marine Science Career Awareness Marine Science Center Poulsbo Washington 3 The Primary Integrated Curriculum Jefferson County Public Schools Lakewood Colorado 4 ESCES Exposing Students to Careers in Earth Science McLean High School McLean Virginia and 5 Science Mentor Program Indianapolis Public Schools Indianapolis Indiana A summary is also provided of the highlights of the exemplary programs ML     Journal of the Washington Academy of Sciences Washington Academy of Sciences (Washington, D.C.),1961 Sept issue 1975 contains directory of members     **Proceedings of the Oklahoma Academy of Science** Oklahoma Academy of Science,1954 Vols 1 49 are Proceedings of the 1st 57th annual meetings     Education for Extinction David Wallace Adams,1995 The last Indian War was fought against Native American children in the dormitories and classrooms of government boarding schools Only by removing Indian children from their homes for extended periods of time policymakers reasoned could white civilization take root while childhood memories of savagism gradually faded to the point of extinction In the words of one official Kill the Indian and save the man Education for Extinction offers the first comprehensive account of this dispiriting effort Much more than a study of federal Indian policy this book vividly details the day to day experiences of Indian youth living in a total institution designed to reconstruct them both psychologically and culturally The assault on identity came in many forms the shearing off of braids the assignment of new names uniformed drill routines humiliating punishments relentless attacks on native religious beliefs patriotic indoctrinations suppression of tribal languages Victorian gender rituals football contests and industrial training Especially poignant is Adams s description of the ways in which students resisted or accommodated themselves to forced assimilation Many converted to varying degrees but others plotted escapes committed arson and devised ingenious strategies of passive resistance Adams also argues that many of those who seemingly cooperated with the system were more than passive players in this drama that the response of accommodation was not synonymous with cultural surrender This is especially apparent in his analysis of students who

returned to the reservation He reveals the various ways in which graduates struggled to make sense of their lives and selectively drew upon their school experience in negotiating personal and tribal survival in a world increasingly dominated by white men The discussion comes full circle when Adams reviews the government's gradual retreat from the assimilationist vision Partly because of persistent student resistance but also partly because of a complex and sometimes contradictory set of progressive humanitarian and racist motivations policymakers did eventually come to view boarding schools less enthusiastically Based upon extensive use of government archives Indian and teacher autobiographies and school newspapers Adams's moving account is essential reading for scholars and general readers alike interested in Western history Native American studies American race relations education history and multiculturalism
