

STUDY GUIDE: LESSON 19

The Problem of Evil

Lesson Overview:

Throughout the history of religion, the primary and most challenging argument presented against belief in God has been the problem of evil. Many philosophers have concluded that belief in an all-powerful and all-loving God is incompatible with the suffering and evil in the world. If God is good and loving, then he would want to eliminate suffering and evil. If God was all-powerful, then he is able to eliminate suffering and evil. Yet, suffering and evil remain. Therefore, they conclude there must not be a God. In our final lesson of this unit, we turn to this challenging problem of evil. We begin by looking at the different types of evil. We then look at the 2 versions of the problem in detail and offer some responses to them. We continue with a discussion of horrendous evils and the problem of hell. Finally, we discuss the issue of divine hiddenness.

Tasks:

View and take notes of the presentation, "The Problem of Evil."

1. What is evil? (a working definition)
 - a. You can define evil based on good.
 - b. Some things we have moral and intellectual knowledge of good and evil, but to actually put it into words is not possible or is very difficult. (We know it when we see it).
2. Why is evil a problem for theists?
 - a. Because of the way we look at God. We say God is all good, morally perfect.
 - b. God can get rid of evil, should want to get rid of it, yet still there is evil here.
 - c. Omnipotent: has all ability
