The key to making today's lesson meaningful. Learning targets Written from students point of view a learning target describes a lesson sized chunk of information and skills that students will come to know deeply. Drawing from the authors extensive research and professional learning partnerships with classrooms schools and school districts this practical book Situates learning targets in a theory of action that students teachers principals and central office administrators can use to unify their efforts to raise student achievement and create a culture of evidence based results oriented practice. Provides strategies for designing learning targets that promote higher order thinking and foster student goal setting self assessment and self regulation.
