Assessing Language Teachers' Professional Skills and Knowledge Rosemary Wilson, Monica Poulter, 2015-01-31 The growth in English language teaching worldwide and the related increase in teacher training programmes of all kinds highlight the need for greater accountability in the assessment of teachers. The need for formal summative assessment has taken on greater importance in training programmes and requires procedures which do not always sit easily with the development process while transparency of assessment procedures is also increasingly demanded by the candidates themselves. This edited volume discusses key issues in assessing language teachers' professional skills and knowledge and provides case study illustrations of how teacher knowledge and teaching skills are assessed at pre-service and in-service levels within the framework of the Cambridge English Teaching Qualifications. The volume provides discussion of ways in which the changing nature of English language teaching has impacted on teacher education and assessment, examples of specific assessment procedures for both teaching knowledge and practical classroom skills, accounts of the ways in which the Cambridge English Teaching Qualifications have been integrated into and adapted for local contexts. This is the first volume of its kind wholly dedicated to language teacher assessment and as such will be of interest to language teachers and teacher educators as well as to researchers and postgraduate students.

TEFL Tourism Hayley Stainton, 2019-07-22 There is evident lineage between the concepts of teaching English as a foreign language, TEFL, and tourism represented through evocative marketing material, the commoditisation of the TEFL product, teacher motivations and experiences. Yet to date there has been no recognition of these links within industry or academia. This book introduces the concept of TEFL tourism, outlining the scale of the sector and the rapid commercialization of TEFL teaching across the world, locating it as an emerging form of niche tourism. The text outlines the organisation types and geographical locations, emphasizing the commodification of English language teaching. It also outlines the types of TEFL tourists, the complexities of international education links with various tourism forms and sustainability considerations of the industry. The book will appeal to tourism academics and students in particular those with interests in educational and volunteer tourism as well as sustainable tourism and commodification.
