## SOAP FORMAT

## S - Symptoms

Mr. Smith has been more than慷慨 for the rest of the session. Staff members are spoken to by the client as if he were the most important person in the room.

Client reported feeling depressed, but not suicidal, when this client was first seen. Client stated "I didn't know if I was well with the public or not." He stated, "I don't believe in treatment, but I'll give it a try as long as I have help with the coverage." He reported being treated at multiple sites for anxiety coverage, but stated "I feel better being on Suboxone, it makes the coverage more manageable." He reported residual pain from his back condition.

## O - Observations

Observations done on interview, supporting the subjective statement. This can include the physical appearance of the patient (e.g., PC, clean, unkempt, disheveled, neatly presented, well-groomed), non-verbal signs, and signs of complicated grief (e.g., crying, etc.).

The patient is currently taking or being prescribed:

Client was, with some effort, engaged. He participated in group therapy and engaged in the group process with the help of the counselor. He was able to identify his "triggers," such as "feeling the same from my accident" and "feeling around other people who are staff." Unrelated symptoms have resolved. However, he still has strong coverage despite improvement since starting Suboxone.

## A - Assessments

The content above is an clinician's assessment of the situation, the client, and the patient's condition, responses to interventions, and progress (or lack thereof) toward goals and objectives. This may also include the diagnosis with a list of symptoms or risk or other relevant clinical details.

Client was good-moderate. Overall, this client engaged in SUD treatment at this time. He still has strong coverage and is fearful of relapse, but trying to be more outgoing in Suboxone. Client is higher than necessary - will continue with Suboxone prescription. He continues to report depressive and pain symptoms and would benefit from the other medications and physician follow-up, respectively.

## P - Plan

The three main plans serving the need, based on the clinical information required and the assessment.

**Substance Use**  

- Client will continue DOB and MAT as prescribed. He agreed to attend at least 2 Medication Assays every meeting at least 2 per week. Continue Suboxone and coordinating with physician prescriptions.
- Counselor will refer the client to case management for help with housing and employment. Admitted.
- Counselor engaging depressive symptoms, will refer for mental health assessment.

**Physical Health**  

- Client will call his PCP to make an appointment for next week.
- Refer to case management to try to ensure the client made PCP appointment.

Is the patient's preferred language in non-English, were translation(s) or interpreter services provided?
