**Waiting in Christian Traditions** Joanne Maguire Robinson, 2015-12 Christians wait for prayers to be answered for an afterlife in heaven for the Virgin Mary to appear and for God to speak They wait to be liberated from oppression to be saved or born again for Easter morning to dawn for healing for conversion and for baptism Waiting and the disappointment and hope that often accompany it are explained in terms that are at first glance remarkably invariant across Christian traditions what will happen will happen on God's time A study of sources from across Christian traditions shows that there is considerable complexity beneath this surface claim Understandings of free will and personal agency alongside shifts in institutional and theological commitments change the ways waiting is understood and valued Waiting is often considered a positive state to be endured as long as God wills and that fundamental understanding helps keep the promises at the heart of Christianity alive Scholars have long overlooked the problem and promise of waiting despite or perhaps because of its prevalence Indeed there are relatively few mystics few who have undergone sudden conversion and few who have attained saintly status Many however have waited and that problem remains prominent and its solutions remain influential in Christian traditions today Provided by publisher

**The Oxford Handbook of Mystical Theology** Edward Howells, Mark A. McIntosh, 2020-02-25 The Oxford Handbook of Mystical Theology provides a guide to the mystical element of Christianity as a theological phenomenon It differs not only from psychological and anthropological studies of mysticism but from other theological studies such as more practical or pastorally oriented works that examine the patterns of spiritual progress and offer counsel for deeper understanding and spiritual development It also differs from more explicitly historical studies tracing the theological and philosophical contexts and ideas of various key figures and schools as well as from literary studies of the linguistic tropes and expressive forms in mystical texts None of these perspectives is absent but the method

here is more deliberately theological working from within the fundamental interests of Christian mystical writers to the articulation of those interests in distinctively theological forms in order finally to permit a critical theological engagement with them for today Divided into four parts the first section introduces the approach to mystical theology and offers a historical overview Part two attends to the concrete context of sources and practices of mystical theology Part three moves to the fundamental conceptualities of mystical thought The final section ends with the central contributions of mystical teaching to theology and metaphysics Students and scholars with a variety of interests will find different pathways through the Handbook
