**Designing Disney's Theme Parks** Centre canadien d'architecture, 1997. From the day it opened in July 1955 in an event given live TV coverage Disneyland has been a key symbol of contemporary American culture. It has been both celebrated and attacked as the ultimate embodiment of consumer society a harbinger of shopping mall culture a symbol of American hegemony in entertainment the epitome of fantasy simulation pastiche and the blurring of distinctions between reality and mass media imagery. Yet for all the power of Disneyland as metaphor almost no one has discussed the making of this unique place with its far flung colonies in Florida Japan and France. Written to accompany an exhibition at the Canadian Centre for Architecture in Montreal Designing Disney's Theme Parks The Architecture of Reassurance is the first book to look beyond the multiple myths of Disneyland. Uniting a roster of authors chosen from wide ranging disciplines this study is the first to examine the influence of Disneyland on both our built environment and our architectural imagination. Tracing the relationship of the Disney parks to their historical forbears it charts Disneyland's evolution from one man's personal dream to a multinational enterprise a process in which the Disney magic has moved ever closer to the real world. Editor Karal Ann Marling Professor of Art History and American Studies at the University of Minnesota draws upon her pioneering work in the Disney archives to reconstruct and analyze the intentions and

strategies behind the parks She is joined by Marty Sklar Vice Chairman and Principal Creative Executive of Walt Disney Imagineering historian Neil Harris art historian Erika Doss geographer Yi Fu Tuan critic Greil Marcus and architect Frank Gehry to provide a unique perspective on one of the great post war American icons     **Walt's Apprentice** Dick Nunis, 2022-10-11 Walt's Apprentice Keeping the Disney Dream Alive is the memoir of Disney Legend Dick Nunis. It is a warm personal reminiscence of learning directly from Walt Disney for 12 years followed by more than 30 years devoted to championing his vision and standards as the Disney empire grew. The story covers Disney's highlights including the 1960 Winter Olympics 1964 1965 New York World's Fair and the development and opening of Disneyland Walt Disney World Epcot Tokyo Disneyland and Disneyland Paris. Unlike other Disney books this story is told from the perspective of operations rather than Imagineering. It touches on decisions that defined the guest experience and Disney's reputation for quality in areas ranging from capacity and people moving training delivering a consistent good show food service and more. This first person narrative is presented as a series of wide ranging vignettes. Some vignettes focus on personal character shaping events such as the injury that ended his collegiate football career. Other stories touch on national events such as Nikita Khrushchev's derailed visit to Disneyland the decision to close the park following the assassination of John F Kennedy and Ronald Reagan's assistance in expediting the visa process for cast members staffing the Epcot World Showcase. Few people have enjoyed a life so immersed in Disney magic. These stories share that magic through the memories of one of the original doers and dreamers.
