Wandering In The Wilderness Changes And Challenges To Emerging Adults Christian Faith:

Wandering in the Wilderness Brian Simmons, 2011-06-14 One of today's hot topics is the faith of emerging adults the 18-30 age group. This book surveys the current research on emerging adulthood, describes the common changes emerging adults experience in their Christian faith as they move through their twenties, and discusses how emerging adults and their parents can successfully navigate those changes. In 2000, psychologist Jeffrey Arnett posited a new life stage, emerging adulthood, to describe the 18-30 age group. This age group was marked by a growing chasm between adolescence and the completion of traditional adult milestones. A number of scholarly studies of this age group have been done in the last decade. This book surveys that research and offers an overview of how emerging adults view Christian faith. It explains how emerging adults reject or modify several of the Christian faith's most common tenets and assumptions. And it offers guidance to parents, grandparents, ministers, and anyone who seeks to better understand the perplexing changes often seen in emerging adults' religious faith and practice. In addition to presenting in reader-friendly form the conclusions of recent research on this age group, *Wandering in the Wilderness* weaves in the reflections of real-life emerging adults who responded to the author's request to share their own experiences of Christian faith. These provide powerful, poignant glimpses into the topic.

Spiritual Formation in Emerging Adulthood David P. Setran, Chris A. Kiesling, 2013-08-15 The shift from adolescence to adulthood, a recently identified stage of life called emerging adulthood, covers an increasing span of years in today's culture, roughly ages 18-30, due to later marriages and extended education. During this prolonged stage of exploration and self-definition, many young adults drift away from the church. Here, two authors, both veteran teachers who are experienced in young adult and campus ministry, address this new and urgent field of study, offering a Christian perspective on what it means to be spiritually formed into adulthood. They provide a practical theology for emerging adult ministry and offer insight into the key developmental issues of this stage of life, including identity, intimacy, and sexuality, morality, church involvement, spiritual formation, vocation, and mentoring. The book bridges the gap between academic and popular literature on emerging adulthood and offers concrete ways to facilitate spiritual formation among emerging adults. *Defiant Hope, Active Love* Jeffrey F. Keuss, 2024-07-30 Cutting-edge social science research into what young adults want out of a faith community. Purpose and meaning, healing and growth, community and fellowship—these values have traditionally been found in church. Though young adults are leaving the pews in droves, they are still seeking these spiritual benefits. How can churches entice them to return? Jeffrey F. Keuss thinks that's the wrong question to ask. Instead, his multigenerational team of scholars investigated how faith communities can make themselves more hospitable to the next generation of Christians. Backed by five years of qualitative and quantitative research, the Pivot NW research team offers practical recommendations for involving young adults in the community, including loosening demands for church membership, involving young adults in leadership, and earlier addressing the economic difficulties of millennials, understanding religious trauma. *Defiant Hope, Active Love*
