**Walking Cities: London** Jaspar Joseph-Lester, Simon King, Amy Blier-Carruthers, Roberto Bottazzi, 2020-05-12 Walking Cities London second edition brings together a new interdisciplinary field of artists writers architects musicians human geographers and philosophers to consider how a city walk informs and triggers new processes of making thinking researching and communicating In particular the book examines how the city contains narratives knowledge and contested materialities that are best accessed through the act of walking The varied contributions take the form of short stories illustrated essays personal reflections and accounts of walks both real and fictional While artist and RCA tutor Rut Blees Luxemburg and philosopher Jean Luc Nancy recount a nocturnal journey from Shoreditch to the City of London architect Peter St John of the practice Caruso St John offers a detailed and personal reflection on the Holloway Road and architect and author Douglas Murphy examines what he calls London s more politically charged locations in his account of a solitary walk through an area of South London Ultimately Walking Cities London seeks to understand the wider significance of changing geographies to generate critical questions and creative perspectives for navigating the social and political impact of rapid urban change

**Engaged Urbanism** Ben Campkin, Ger Duijzings, 2016-11-25 Engaged Urbanism showcases the exciting ways in which urbanists are responding to this question and working towards fairer cities Its authors offer succinct candid and carefully illustrated commentaries on the trials and successes of risk taking research revealing how they collaborate across fields of expertise inventing or adapting methods to suit bespoke situations Featuring novel uses and combinations of practice from activism architectural design and undercover journalism to film sculpture performance and photography in a diversity of cities such as Beirut Johannesburg Kisumu London and Rio de Janeiro Engaged Urbanism demonstrates how some of the greatest challenges for present and future populations are being rigorously and creatively addressed

*The quiet contemporary American novel* Rachel Sykes, 2017-12-01 This book explores the concept of quiet an aesthetic of narrative driven by reflective principles and argues for the term s application to the study of contemporary American fiction In doing so it makes two critical interventions Firstly it maps the neglected history of quiet fictions arguing that from Hester Prynne to Clarissa Dalloway from Bartleby to William Stoner the Western tradition is filled with quiet characters Secondly it asks what it means for a novel to be quiet and how we might read for quiet in an American literary tradition that critics so often describe as noisy Examining recent works by Marilynne Robinson Teju Cole and Ben Lerner among others the book argues that quiet can be a multi faceted state of existence one that is communicative and expressive in as many ways as noise but filled with potential for radical discourse by its marginalisation as a mode of expression

**The Art of Resistance** Allyson Fiddler, 2018-10-19 Well before the far right resurgence that has most recently transformed European politics Austria s 1999 parliamentary elections surprised the world with the unexpected success of the Freedom Party of Austria and its charismatic leader Jörg Haider The party s perceived xenophobia isolationism and unabashed nationalism in turn inspired a

massive protest movement that expressed opposition not only through street protests but also in novels plays films and music Through careful readings of this varied cultural output *The Art of Resistance* traces the aesthetic styles and strategies deployed during this time providing critical context for understanding modern Austrian history as well as the European protest movements of today

**Body Utopianism** Franziska Bork Petersen,2022-07-04 This book investigates how desires to transform our bodies can bring utopia to the present and how utopian practices often lead to distinctly dystopian or anti utopian outcomes It is the first comprehensive study to address the paradoxical relationship between bodies and utopianism Franziska Bork Petersen discusses doping bodybuilding and cosmetic surgery alongside practices such as retouching the body as image on social media and looks at how fashion modelling and performance estrange the body Techniques and technologies to transform our bodies are increasingly accessible and suggest an excessive identification of the body as lacking To be a body in a culturally meaningful way we incessantly improve our bodily appearance and capacity The book therefore addresses the utopianism inherent in a cultural understanding of bodies as increasingly controllable

**Creative Ecologies** Hélène Frichot,2018-12-13 Architect and philosopher Hélène Frichot examines how the discipline of architecture is theorized and practiced at the periphery Eschewing a conventionally direct approach to architectural objects to iconic buildings and big name architects she instead explores the background of architectural practice to introduce the creative ecologies in which architecture exists only in relation to other objects and ideas Consisting of a series of philosophical encounters with architectural practice that are neither neatly located in one domain nor the other this book is concerned with other ways of doing architecture It examines architecture at the limits where it is muddled by alternative disciplinary influences whether art practice philosophy or literature Frichot meets a range of creative characters who work at the peripheries and who challenge the central assumptions of the discipline showing that there is no core of architecture there is rather architecture as a multiplicity of diverse concerns in engagement with local environments and worlds From an author well known in the disciplines of architecture and philosophy for her scholarship on Deleuze this is a radical accessible and highly original approach to design research deftly engaging with an array of current topics from the Anthropocene to affect theory new materialism to contemporary feminism

**Westerly** ,2015 [The Afterglow of Women's Pornography in Post-Digital China](#) K. Jacobs,2015-06-03 Chinese artists activists and netizens are pioneering a new order of pornographic representation that is in critical dialogue with global entertainment media Jacobs examines the role of sex positive feminists and queer communities to investigate pornography's afterglow a state of crisis and decay within digital culture
