Savaged Surrender Jennifer Lyon, 2016-10-20 *Take It Easy, Vol 1 Talks on Zen Buddhism* Osho, 2023-03-07 Religion is the vast sky of existence Reason is a tiny human phenomenon The reason has to be lost has to be dropped Only by going beyond the mind does one start understanding what is That s the radical change No philosophy can bring that radical change only religion Religion is non philosophic anti philosophic and Zen is the purest form of religion Zen is the very essence of religion Hence it is irrational it is absurd If you try to understand it logically you will be bewildered It can only be understood illogically It has to be approached in deep sympathy and love YOU CANNOT approach Zen through empirical scientific objective concepts They all have to be dropped It is a heart phenomenon You have to feel it rather than think it You have to BE it to know it Being is knowing And there is no other knowing *City of Dreams Vol 1* Jonas Baghlani, 2024-09-23 In a secret world beneath the Earth s crust an impossible truth holds everything together the very fabric of this underground reality is sustained by the collective dreams of the people who live there Every tree building and cloud in the sky exists because they re dreamt into existence It s a world built on the delicate balance of imagination and belief where the citizens are literally the creators of their own reality And amidst all this we meet our protagonist a delusional automotive engineer who believes he s a scientific genius hiding from the world in his underground lab to avoid government scrutiny He feels as if he has stumbled upon this dream powered world by accident While everyone else down here nurtures and maintains the dream that makes their reality exist he s convinced it s all nonsense just a bizarre unexplained anomaly In his eyes there s a perfectly rational explanation for everything one that will make him world famous once he proves it But the citizens of this world don t see things his way they rely on their collective belief and anyone who challenges it is a threat Lately whispers have spread throughout the underground world whispers of an unseen enemy Posters have begun to appear on street corners warning about someone who doesn t believe someone who threatens the dream And it s not dismissed as a conspiracy or fearmongering but the warnings are growing louder and the fear is starting to take root because the residents believe After all what happens to a world made of dreams when someone refuses to dream along Our protagonist of course finds these rumors laughable The idea that belief powers the world is just superstition to him He continues his work in secret tampering with genetic technology and playing around with bizarre experiments that could potentially disrupt the delicate balance of the dreamworld As tensions rise the citizens begin to suspect that he may be the very enemy the posters warn of The protagonist stubborn and arrogant refuses to accept that his disbelief could be causing any sort of breakdown To him the idea that belief controls reality is as absurd as the conspiracy theories he scoffs at But the more the world unravels the

clearer it becomes belief isn't just a fanciful notion down here it's the very force keeping the world alive The unseen enemy the one who doesn't believe in the dream may not be a shadowy figure in the background It may be him **The Hidden**

Lives of Dreams Melinda Powell, 2020-03-26 On average we spend around six years of our lives dreaming Yet astonishingly few of us understand the purpose of dreams and even fewer recognise what our dreaming mind can tell us about ourselves and our world Melinda Powell psychotherapist and co founder of the Dream Research Institute UK reveals how better understanding our dreams can improve our waking lives As well as examining the importance of sleep and dreams The Hidden Lives of Dreams explores the role of light colour landscapes space healing presence and lucidity in dreams dispels common misconceptions and addresses our fears of nightmares Powell shows how to tap into our dreams as a source of guidance and inspiration to enhance our wellbeing and to discover a healthier more balanced approach to life Exploring the depths of dreaming with an experienced guide like Melinda Powell will bring you closer to your heart your purpose and your truest self Highly recommended Robert Waggoner **The Making of the American Dream, Vol 2** Lewis E. Kaplan, 2009

Any history that touts itself as unconventional is bound to raise some hackles when it challenges traditional interpretations of our nation's past Yet history is continually under revision This 2 volume work covering America's first 300 years differs from others in seeking to debunk numerous flattering and conventionally accepted myths a Reading between the lines of what we've all been taught as US history the author probes a little deeper into what perhaps was never denied but was never spelled out either Some inconvenient questions emerge Was lust for land the driving force behind every war in US history In a lively narrative Kaplan demonstrates that in many ways Lincoln was our worst wartime president save Madison and that Reconstruction was doomed from the start The author describes how an agricultural hinterland evolved into an industrial colossus and a society of small towns grew into a nation of large cities When it did what had once been the world's leading republican government gradually edged towards becoming a democracy a form of government abjured by the Founding Fathers The War Between the States and the rapid industrialization of the North was made possible by tapping the vast resources which lay underneath the land Oil coal iron ore copper zinc and other minerals made the US the richest and most powerful nation in the world by the end of the nineteenth century when this book concludes The book also chronicles the fledgling Labor movement in the 19th century handily discredited through equation with anarchists and explores the cynicism with which McKinley embarked on the Spanish American War The basic thrust of this 2 volume work is neither to expose America's blemishes nor to eulogize its virtues a Rather the author focuses on US history from a different perspective than is usually accepted Readers may disagree with his interpretations but will find his arguments intriguing **The Book of Surrender** Wingate Paine, Emmanuel W.
