The Oxford Handbook of Peace History Charles F. Howlett, Christian Philip Peterson, Christian Peterson, Deborah D. Buffton, David L. Hostetter, 2023 *The Oxford Handbook of Peace History* uniquely explores the distinctive dynamics of peacemaking across time and place and analyzing how past and present societies have created diverse cultures of peace and applied strategies for peaceful change The analysis draws upon the expertise of many well respected and distinguished scholars from disciplines such as anthropology economics history international relations journalism peace studies sociology and theology This work is divided into six parts The first three sections address the chronological sweep of peace history from the Ancient Egyptians to the present while the last three cover biographical profiles of peace advocates key issues in peace history and the future of peace history A central theme throughout is that the quest for peace is far more than the absence of war or the pursuit of social justice ideals Students and scholars alike will appreciate that this work examines the field of peace history from an international perspective and expands analysis beyond traditional Eurocentric frameworks This volume also goes far beyond previously published handbooks and anthologies in answering what are the strengths and limits of peace history as a discipline and what can it offer for the future It also has the unique features of a state of the field introduction with a detailed treatment of peace history historiography and a chapter written by a noted archivist in the field that provides a comprehensive list of peace research resources It is a work ably suited applicable for classrooms and scholarly bookshelves
