Iver Wahl

Understanding Structures Fuller Moore:

Understanding Structures Fuller Moore, 1999 This conceptual introduction to architectural structures covers all the basic structural principles and terms explains how to use statistics of equilibrium formulae to calculate beam reactions and employs illustrations and multi exposure model photographs to provide a compelling overall guide to structural behavior Also distinguishing this guide from many others on the market are its case studies and useful preliminary sizing data

Building Structures Illustrated Francis D. K. Ching, Barry S. Onouye, Douglas Zuberbuhler, 2014-03-04 A new edition of Francis D K Ching s illustrated guide to structural design Structures are an essential element of the building process yet one of the most difficult concepts for architects to grasp While structural engineers do the detailed consulting work for a project architects should have enough knowledge of structural theory and analysis to design a building Building Structures Illustrated takes a new approach to structural design showing how structural systems of a building such as an integrated assembly of elements with pattern proportions and scale are related to the fundamental aspects of architectural design The book features a one stop guide to structural design in practice a thorough treatment of structural design as part of the entire building process and an overview of the historical development of architectural materials and structure Illustrated throughout with Ching s signature line drawings this new Second Edition is an ideal guide to structures for designers builders and students Updated to include new information on building code compliance additional learning resources and a new glossary of terms Offers thorough coverage of formal and spatial composition program fit coordination with other building systems code compliance and much more Beautifully illustrated by the renowned Francis D K Ching Building Structures Illustrated Second Edition is the ideal resource for students and professionals who want to make informed decisions on architectural design
