

# Super T10

Born in the "muscle Car era" of the '60's, the Richmond Super T10 has been redesigned and improved for the '90's and beyond. NASCAR proven, the current Super T10 is 10 pounds lighter and 50% more durable than the original.

The Super T10 is deigned to provide improved acceleration potential while best utilizing the advantages of a four speed transmission.

A four speed countershaft helical gear transmission, the Super T10 is synchronized in all forward gears. First and reverse are "constant mesh" to prevent gear "clash", while strut-type synchronizers provide longer life and easier shifting.

Four models are available to fit specific applications. All four ratio sets provide a low first gear while retaining a relatively close spacing between 2nd to 3rd and 3rd to 4th shifts.

The Richmond Super T10 should be your choice for performance type automobiles, light trucks and selected models of intermediate and full-sized cars. Our engineering expertise and a "PRO-QUALITY" approach to drivers demanding winning performance are built into every transmission that wears the Richmond name.
