

Hesi A2 Reading comprehension

1. Eating set 1

Consumption of food is a universal necessity. Different cultures have developed different methods to accomplish the task. It is interesting to discover these differences and learn new ways to do things. European cultures developed cutlery (knives, forks, and spoons) to enable people to efficiently eat their food. Correct use of these tools changes with the times-what was polite in 1800 may not be considered proper manners today. China developed the chopstick as an efficient tool for eating. Mastery of the use of chopsticks can be difficult for the person not raised in the culture. The attempts of a novice to use chopsticks can be very amusing to the watcher, but frustrating for the hungry diner. Space travel has created new challenges for consuming food. Squeeze bottles and other unique packaging have enabled space travelers to get their needed nutrition. Chopsticks and forks do not work well in space.

2.	1. What conclusion can be drawn about the article? (eating)	The author explains differences in eating processes.

Reading Comprehension Update:

Executive Skills and Reading Comprehension Kelly B. Cartwright, 2015-07-13 How do K-12 students become self-regulated learners who actively deploy comprehension strategies to make meaning from texts? This cutting-edge guide is the first book to highlight the importance of executive skills for improving reading comprehension. Chapters review the research base for particular executive functions such as planning, organization, cognitive flexibility, and impulse control, and present practical skills-building strategies for the classroom. Detailed examples show what each skill looks like in real readers, and sidebars draw explicit connections to the Common Core State Standards. Reproducible planning and assessment forms can be downloaded and printed in a convenient 8 1/2 x 11 size.

Socioculturally Responsive Assessment Randy E. Bennett, Linda Darling-Hammond, Aneesha Badrinarayan, 2025-05-01 Socioculturally Responsive Assessment assembles the best available thinking from within and outside the educational measurement community about the theoretical foundations and systems-level policy implications of formal assessment programs designed to be socioculturally responsive. Synthesized from culturally responsive assessment design and practices, culturally relevant pedagogy, and funds of knowledge, universal design for learning, the learning sciences, and other literatures, this emerging concept affirms that students' learning and performance is inextricably tied to the social, cultural, and linguistic contexts in which they live and develop knowledge. Across four sections, this book provides an argument and initial evidence for impact on students, users, and assessment quality; offers guidance for implementation and examines the potential limitations, pitfalls, barriers, and measurement issues that such programs will inevitably raise. Scholars, teaching faculty, test developers, and policymakers will come away with integral foundations, new assessment approaches, and a greater sense of the potential for positive impact that these assessments may afford.

Resources in Education, 1985-09 **The Tenth Mental Measurements Yearbook** Buros Center, Jane Close Conoley, 1989 Customers who place a standing order for the Tests in Print series or the Mental Measurements Yearbook series will receive a 10% discount on every volume. To place your standing order, please call 1 800 848 6224 in the U.S. or 919 966 7449 outside the U.S. The most widely acclaimed reference series in education and psychology, the Mental Measurements Yearbooks are designed to assist professionals in selecting and using standardized tests. The series, initiated in 1938, provides factual information, critical reviews, and comprehensive bibliographic references on the construction, use, and validity of all tests published in English. The objectives of the Mental Measurements Yearbooks have remained essentially the same since the publication of the series. These objectives include provision to test users of factual information on all known tests published as separates in the English-speaking countries of the world, candidly critical test reviews written for the MMY series by qualified professional people representing a variety of viewpoints, unique publication of each volume in the MMY series with new volumes supplementing rather than supplanting previous series volumes. Each yearbook is a unique publication supplementing rather than supplanting the previous volumes.
