The Framework of Legal Evolution Leopold Willem Rosdorff, 2014-09-01 **The Framework of Legal Evolution. Proefschrift, Etc** Leopold Willem ROSDORFF, 1974 **The Oxford Handbook of Law and Economics** Francesco Parisi, 2017-04-27 Covering over one hundred topics on issues ranging from Law and Neuroeconomics to European Union Law and Economics to Feminist Theory and Law and Economics The Oxford Handbook of Law and Economics is the definitive work in the field of law and economics The book gathers together scholars and experts in law and economics to create the most inclusive and current work on law and economics Edited by Francisco Parisi the Handbook looks at the origins of the field of law and economics tracks its progression and increased importance to both law and economics and looks to the future of the field and its continued development by examining a cornucopia of fields touched by work in law and economics The uniqueness of its breadth depth and convenience make the volume essential to scholars students and contributors in the field of law and economics **Judicial Decision-Making in a Globalised World** Elaine Mak, 2014-07-04 Why do judges study legal sources that originated outside their own national legal system and how do they use arguments from these sources in deciding domestic cases Based on interviews with judges this book presents the inside story of how judges engage with international and comparative law in the highest courts of the United Kingdom Canada the United States France and the Netherlands A comparative analysis of the views and experiences of the judges clarifies how the decision making of these Western courts has developed in light of the internationalisation of law and the increased opportunities for transnational judicial communication While the qualitative analysis reveals the motives that judges claim for using foreign law and the influence of globalist and localist approaches to judging the author also finds suggestions of a convergence of practices between the courts that are the subject of this study This empirical analysis is complemented by a constitutional theoretical inquiry into the procedural and substantive factors of legal evolution which enable or constrain the development and possible convergence of highest courts practices The two strands of the analysis are connected in a final contextual reflection on the future development of the role of Western highest courts **Legal Reform in the Contemporary Socialist World** Ngoc Son Bui, 2024-08-12 Legal Reform in the Contemporary Socialist World explores four decades of legal reform in the socialist countries of China Vietnam Laos North Korea and Cuba from a comparative perspective Spanning the late 1970s to the present it examines various projects methods strategies contents driving forces and limitations of legislative reform administrative reform judicial reform and reform of the legal profession Legal reform in these countries is the project of the political elite to improve the legal system while retaining its core socialist principles It is carried out through legislative enactments amendments and replacements which the political elite adopt using incremental strategies to reform the legal system sporadically or systematically Socialist legal reform is animated by the political aspiration to create the rule of law the impact of social economic change and the influence of transnational and comparative law Despite significant reforms the

EC Competition Law - The Essential Facilities Doctrine Veronica Hagenfeldt, 2011-03-30 Scientific Essay from the year 2009 in the subject Law Civil Private Trade Anti Trust Law Business Law University of Edinburgh School of Law course EC Competition Law language English abstract The first aim of this paper is to establish the Essential Facilities Doctrine's EFD undeniable existence in EC law and to determine how its application has evolved over time by analysing the relevant case law By outlining the legal theory of the EFD Part I shows that the Doctrine is a well established competition law remedy within the refusal to supply framework of Article 82 EC This paper argues that the EFD should be an exceptional measure only applied after careful balancing of the dominant undertaking's freedom of contract and right to property against the potential benefits to consumer welfare By investigating how the EFD has been applied practically in refusal to supply case law the second half of Part I identifies the different criteria under which refusal to grant access to an essential facility was deemed to constitute an abuse and concludes that the circumstances in which the EFD was initially applied were not consistent It is submitted that it was not until the Bronner Judgment that the EU institutions began applying the EFD to refusal to supply cases within a coherent and sufficiently strict legal framework Part II will deal with the second aim of this essay namely to evaluate the legal evolution of the Doctrine's controversial application to Intellectual Property Rights IPRs Because compulsory licensing of IPRs can have grave negative repercussions on innovation and consumer welfare this paper maintains that the EFD's application to IPRs should be exceptional and subject to the strictest of conditions It accordingly supports the notion that IPRs require special deference in comparison to physical property rights and notes that the EFD is applied to IPRs under stricter legal standards than when applied to other property rights The second half of Part II investigates the Doctrine's application to refusal to licence cases This paper identifies that there has recently been a significant and regrettable attenuation of the abovementioned stricter standards since the criteria of the exceptional circumstances test under which the EFD results in compulsory licensing have been indefensibly widened following the
