Eating---

Consumption of food is a universal necessity. Different cultures have developed different methods to accomplish the task. It is interesting to discover these differences and learn new ways to do things. European cultures developed cutlery (knives, forks, and spoons) to enable people to efficiently eat their food. Correct use of this tools changes with the times-what was polite in 1800 may not be considered proper manners today. China developed the chopstick as an efficient tool for eating. Mastery of the use of chopsticks can be difficult for the person not raised in the culture. The attempts of a novice to use chopsticks can be very amusing to the watcher, but frustrating for the hungry diner. Space travel has created new challenges for consuming food. Squeeze bottles and other unique packaging have enabled space travelers to get their needed nutrition. Chopsticks and forks do not work well in space. - ANS; set 1

Food

Food and drink are necessary and desirable, but their abuse can cause serious physical and mental problem. Many physicians believe that overeating is one of the country's main health problems, since it places a great strain on the heart, can lead to diabetes, and often shortens the individual's life span. To fill an emotional void, people often turn to food when they are bored or lonely. Another area of concern is alcohol consumption. The results of alcohol abuse are widely publicized. The social drinker who becomes alcoholic, the drunken driver's contribution to highway death, spousal and child abuse, are all concomitant problems associated with alcohol abuse. - ANS; Set 2

Sign Language in Mainstream Education for the Deaf and Hard-of-hearing Students in Asia Gladys

Tang,2025-05-23 This book focuses on two means of recruiting sign language to support DHH students in mainstream education in Asia. The first approach is educational sign interpreting which has been adopted to support signing DHH students in mainstream classrooms in Taiwan. Contributions report on a questionnaire survey with post hoc interviews examining the reactions of students, parents, a resource teacher and an interpreter towards providing this service in the education system. The second approach is co enrolment which involves bringing a critical mass of DHH students into the mainstream classroom for them to study with hearing children supported by either a deaf teacher or a teacher highly proficient in signing who co-teaches with a regular teacher and co-shares responsibilities in taking care of the whole class of students. The chapters exemplifying this approach report on the effects of co enrolment on DHH students' language development and academic attainment. This book was originally published as a special issue of *Deafness Education International*.

Language Acquisition By Eye Charlene Chamberlain, Jill P. Morford, Rachel I. Mayberry, 1999-08
