The Mongol Empire between Myth and Reality Denise

Aigle,2014-10-23 In *The Mongol Empire between Myth and Reality* Denise Aigle presents the Mongol empire as a moment of contact between political ideologies religions cultures and languages and in terms of reciprocal representations between the Far East the Muslim East and the Latin West The first part is devoted to The memoria of the Mongols in historical and literary sources in which she examines how the Mongol rulers were perceived by the peoples with whom they were in contact In Shamanism and Islam she studies the perception of shamanism by Muslim authors and their attempts to integrate Genghis Khan and his successors into an Islamic framework The last sections deal with geopolitical questions involving the Ilkhans the Mamluks and the Latin West Genghis Khan s successors claimed the protection of Eternal Heaven to justify their conquests even after their Islamization [From Mythology to Reality: Moving Beyond Rastafari](#) Seon M. Lewis,2013-10-19

The main thesis of this book is based on the Rastafarian Movement This book presents information about this movement in one place that is largely not know by the many adherents of the faith Moreover this book presents a unique view of the Movement a view embedded in a Grenadian Caribbean experience This view however is not narrowly placed but is argued within a wider world context and thus explains whether the Rastafarian movement can be a force for good both within the black community and the world at large Editor and author Norm R Allen Jr said that This well researched book expertly demolishes the ridiculous notion among Rastafarians that Emperor Haile Selassie of Ethiopia is God Moreover Lewis offers many excellent critiques of theism the Bible Rastafarianism Afrocentric thought and religion in general This book is informative to everyone **Encyclopaedia of Religion and Ethics** James Hastings,John Alexander Selbie,Louis Herbert Gray,1928

Encyclopaedia of Religion and Ethics: Burial-Confessions James Hastings,John Alexander Selbie,1913 **The Publishers Weekly** ,1988 *Beyond Belief* Hugh Mackay,2016-04-26 What do people actually mean when they say God Around two thirds of us say we believe in God or some higher power but fewer than one in ten Australians attend church weekly In *Beyond Belief* Hugh Mackay presents this discrepancy as one of the great unexamined topics of our time He argues that while our attachment to a traditional idea of God may be waning our desire for a life of meaning remains as strong as ever Mackay interviews dozens of Australians representing many different points on the spectrum of faith including some who are part of the emerging spiritual but not religious movement He exposes the deep vein of ambivalence about religion that runs through our society we may not actively worship but we still like to see local churches operating in our midst and we use our church to marry christen our babies educate our children and commemorate our dead He points out some uncomfortable truths such as our tendency to call on God only in a crisis and unpacks our human need for answers even when science can t find them He endorses the Christian ideal of the good life a life lived for others but acknowledges that there are many pathways to that same goal not all of them religious Written with all the insight and compassion we have

come to expect of our leading chronicler of Australian life *Beyond Belief* is an engrossing exploration of the ways we find spiritual fulfilment in an avowedly secular age **The Christian Theology Reader** Alister E. McGrath, 2016-10-17
