Glimpses of the New Creation W. David O. Taylor, Jeremy Begbie, 2019-09-03 How do the arts in worship form individuals and communities Every choice of art in worship opens up and closes down possibilities for the formation of our humanity Every practice of music every decision about language every use of our bodies every approach to visual media or church buildings forms our desires shapes our imaginations habituates our emotional instincts and reconfigures our identity as Christians in contextually meaningful ways generating thereby a sense of the triune God and of our place in the world *Glimpses of the New Creation* argues that the arts form us in worship by bringing us into intentional and intensive participation in the aesthetic aspect of our humanity that is our physical emotional imaginative and metaphorical capacities In so doing they invite the people of God to be conformed to Christ and to participate in the praise of Christ and in the praise of creation which by the Spirit's power raises its peculiar voice to the Father in heaven for the sake of the world that God so loves

Wesley and Aldersgate Mark K. Olson, 2018-09-03 Despite being widely recognized as John Wesley's key moment of Christian conversion Aldersgate has continued to mystify regarding its exact meaning and significance to Wesley personally This book brings clarity to the impact this event had on Wesley over the course of his lifetime by closely examining all of Wesley's writings pertaining to Aldersgate and framing them within the wider context of contemporary conversion narratives The central aim of this study is to establish Wesley's interpretation of his Aldersgate experience as it developed from its initial impressions on the night of 24 May 1738 to its mature articulation in the 1770s By paying close attention to the language of his diaries letters journals sermons tracts and other writings fresh insights into Wesley's own perspective are revealed When these insights are brought into wider context of other conversion narratives in the Christian milieu in which Wesley worked and wrote this book demonstrates that this single event contributed in significant ways to the ethos of the Methodist movement and many other denominations even up to the present day This is a unique study of the conversion of one of history's most influential Christian figures and the impact that such narratives still have on us today As such it will be of great use to scholars of Methodism theology religious history and religious studies more generally *Wesleyan Beliefs*

English Spirituality Gordon Mursell, 2001-01-01 This wide ranging historical survey provides an indispensable resource for those interested in exploring teaching or studying English spirituality In two stand alone volumes it traces history from Roman times until the year 2000 The main Christian traditions and a vast range of writers and spiritual themes from Anglo Saxon poems to late modern feminist spirituality are included

These volumes present the astonishing richness and variety of responses made by English Christians to the call of the divine during the past two thousand years *Making God Possible* Alan Billings,2011-09-22 What are clergy for In this lively and provocative volume Alan Billings argues that they serve the mission and ministry of the Church which is to make God possible In each new era how to carry out this mission effectively will vary as the Church seeks to respond to changes in society and culture but it is likely to involve clergy in a refocusing of their ministry Part 1 of *Making God Possible* looks at recent cultural shifts and the challenges they present to Christianity in the twenty first century Part 2 explores some of the models of ministry which have been found in the Church in the past and which continue to exercise an influence classical the parson evangelical the minister catholic the priest and utility the social activist and personal therapist The author skilfully draws out those things of lasting importance and value in each model that might contribute towards the renewal of the ordained ministry today Union Catalog of the Graduate Theological Union Graduate Theological Union. Bourgeois Equality Deirdre N. McCloskey,2017-10-13 The last 200 years have witnessed a 100 fold leap in well being Deirdre McCloskey argues that most people today are stunningly better off than their forbearers were in 1800 and that the rest of humanity will soon be A purely materialist incentivist view of economic change does not explain this leap We have now the third in McCloskey s three volume opus about how bourgeois values transformed Europe Volume 3 nails the case for that transfiguration telling us how aristocratic virtues of hierarchy were replaced by bourgeois virtues more precisely by attitudes toward virtues that made it possible for ordinary folk with novel ideas to change the way people farmed manufactured traveled ruled themselves and fought It is a dramatic story and joins a dramatic debate opened up by Thomas Piketty in his best selling *Capital in the 21st Century* McCloskey insists that economists are far too preoccupied by capital and saving arguing against the position of Piketty and most others that capital induces a tendency to get more that money reproduces itself that riches are created from riches Not so our intrepid McCloskey shows Bill Gates and Steve Jobs among the biggest wealth accumulators in our era didn t get rich through the magic of compound interest on capital They got rich through intellectual property creating billions of dollars from virtually nothing Capital was no more important an ingredient to the original Apple or Microsoft than cookies or cucumbers The debate is between those who think riches are created from riches versus those who with McCloskey think riches are created from rags between those who see profits as a generous return on capital or profits coming from innovation that ultimately benefits us all **Author-title Catalog** University of California, Berkeley.
