*The New Brazilian Economy* Elias C. Grivoyannis, 2016-12-12 This edited collection provides a thorough historical statistical and institutional description of the current Brazilian economy and the previous economic structure from which it is emerging The contributions explore the institutional economic and cultural forces shaping the current development of the Brazilian economy and discuss how they will influence future progress Together the chapters form a picture of the international implications of Brazil's emergence as a major world economic power Topics covered include the growth and shrinkage of industry the consumption boom and the financial crisis sustainable financial growth and public debt management the evolution of antitrust policy and the privatization of state owned firms and more Academics and researchers of BRICS countries and Latin American and Caribbean studies will find these contributions a valuable addition to their research

*Success in Agricultural Transformation* Isabelle Tsakok, 2011-08-01 To lift and keep millions out of poverty requires that smallholder agriculture be productive and profitable in the developing world Do we know how to make this happen Researchers and practitioners still debate how best to do so The prevailing methodology which claims causality from measures of statistical significance is inductive and yields contradictory results In this book instead of correlations Isabelle Tsakok looks for patterns common to cases of successful agricultural transformation and then tests them against other cases She proposes a hypothesis that five sets of conditions are necessary to achieve success She concludes that government investment in and delivery of public goods and services sustained over decades is essential to maintaining these conditions and thus successfully transform poverty ridden agricultures No amount of foreign aid can substitute for such sustained government commitment The single most important threat to such government commitment is subservience to the rich and powerful minority
