Annual Report on Exchange Arrangements and Exchange Restrictions 2012 International Monetary Fund.

Monetary and Capital Markets Department, 2012-09-14. Published since 1950 this authoritative annual reference is based on a unique IMF database that tracks exchange and trade arrangements for 187 IMF member countries along with Hong Kong SAR, Aruba and Curaao and Sint Maarten. The Annual Report on Exchange Arrangements and Exchange Restrictions AREAER draws together information available to the IMF from a number of sources including during official IMF staff visits to member countries. There is a separate chapter for each of the 189 countries included and these are presented in a clear easy to read tabular format. A summary table allows for simple cross country comparisons of key features of their exchange and trade regimes. The report's introduction summarizes recent global trends and developments. It discusses such topical issues as exchange rate arrangements, current or capital transactions or prudential regulations. The individual country chapters outline exchange measures in place, the structure and setting of exchange rates, arrangements for payments and receipts, procedures for resident and nonresident accounts, mechanisms for import and export payments and receipts, controls on capital transactions and provisions specific to the financial sector. The report now provides more detailed information on the operations of foreign exchange markets and exchange rate mechanisms and better describes the regulatory framework for current and capital account transactions.
