Pedagogy

of Humanization Chelda Smith Kondo,2024-03-30 The purpose of Pedagogy of Humanization Preparing Teachers for Culturally Sustaining Classrooms is to build a critical mass of educators who know how to employ the principles of critical pedagogy in elementary classrooms This includes attention to the various knowledge skills and dispositions required of critical pedagogues in their curricula instruction assessment classroom environment and relationships From Critical Race Theory CRT to restorative justice oriented classroom management the theoretical is made practical Moreover the structure of the book follows the curriculum of a traditional teacher education program making it complementary to any teacher education course The Pedagogy of Humanization is the first book to bring together the practice how and theory what and why of inclusive and asset based teaching In this book a group of teacher educators across disciplines explore their personal and professional identities to reveal the potential for applying each tenet of culturally relevant pedagogy in their respective fields Filled with anecdotes exercises user friendly theories and examples readers will learn how teachers can humanize themselves to have the capacity to be effective teachers of children who have been dehumanized and underserved by traditional teaching and schooling Pre service teachers will read this book so that they can connect the material they study in teacher education courses to the daily work of being an educator who aims to be justice oriented However this is not a foolproof guide or how to manual that could be completed without direct support from mentors and colleagues Instead readers will practice the sort of engagement in individual and community growth that ignites the possibility of teaching as a force for social change In many ways chapters of the text could be used through a flipped classroom approach whereby faculty invert the typical cycle of content acquisition and application The book will prove to be a valuable resource as a teaching text in classrooms devoted to critical pedagogy Critical Race Theory social justice and other topics necessary to produce teachers who are prepared to maximize their effectiveness in educating today s students *From Rigorous Standards to Student Achievement* Laura Mc Cullough,Michael D. Rettig,Karen Santos,2013-09-27 This book showcases strategies which support teachers and principals as they implement high standards for students At the same time it demonstrates how to meet the needs of diverse learners

Shared Data, Shared Decisions Jason Williams,2025-09-30 Author Jason Williams develops a framework that balances data based decision making with a deep consideration for addressing students unique needs to foster improved learning outcomes Focusing on five qualities integral to a healthy data culture Williams offers educators a simple reliable way to assess and reconsider their data practices to ensure a positive school environment that empowers them to gather analyze and respond to student data with reasonable urgency and increased efficiency K 12 teachers and administrators can use this book to Identify clear student learning targets to create effective assessments for data collection Plan and manage time strategically to ensure efficient data collection and analysis Establish a culture of trust to facilitate open and honest data discussion and sharing Promote transparency of data to develop well informed responsive action plans Embrace a tenacious spirit through the trials and errors of school improvement
