product of growing old The usual onset is between the ages of nineteen and forty four and in many cases the cause is unknown Shouting Won t Help is a deftly written deeply felt look at a widespread and misunderstood phenomenon In the style of Jerome Groopman and Atul Gawande and using her experience as a guide Bouton examines the problem personally psychologically and physiologically She speaks with doctors audiologists and neurobiologists and with a variety of people afflicted with midlife hearing loss braiding their stories with her own to illuminate the startling effects of the condition The result is a surprisingly engaging account of what it s like to live with an invisible disability and a robust prescription for our nation s increasing problem with deafness A Kirkus Reviews Best Nonfiction Book of 2013 *The Federal Law Reports*
