The Complete & Independent Guide to the

Eurovision Song Contest 2016 Simon Barclay, 2016-06-04 Jamala won the 2016 Eurovision Song Contest for Ukraine with her emotional performance of 1944 in a thrilling final in Stockholm. Australia were runners up in only their second Contest and would have won if the traditional points system had still been used. The 2016 Edition of the Complete Independent Guide is the 9th edition of this book and as usual it's packed with details of every Contest since 1956 along with plenty of new analysis over 313 pages. 30 more than last year. The new points system was a big change this year and its effects are covered in detail in the book with plenty of analysis of how the statistics under the new system compare to the previous one. The book looks at the national qualification competitions for 2016 and also has an in depth section on the entire voting history of each country along with new sections on geographical voting and how to predict winners.

Asian Cultural Flows Nobuko

Kawashima, Hye-Kyung Lee, 2018-10-10 This book investigates economic, political and cultural conditions that have led to transnational flows of culture in Asia. Coverage also looks at the consequences of an increasingly interconnected Asian regional culture as well as policy makers and cultural industries' response to it. The book features essays written by researchers from different countries in Asia and beyond with diverse disciplinary backgrounds. The volume also contains engaging examples and cases with comparative perspectives. The contributors provide readers with grounded analysis in the organizational and economic logics of Asian creative industries' national cultural policies that promote or hinder cultural flows and the media convergence and online consumers' surging demand for Asianized cultural products. Such insights are of crucial importance for a better understanding of the dynamics of transnational cultural flows in contemporary Asia. In addition, the essays aim to de-westernize the study of cultural and creative industries which draws predominantly on cases in the United States and Europe. The contributors focus instead on regional dynamics of the development of these industries. The popularity of J Pop and K Pop in East and Southeast Asia and beyond is now well known, but less is known about how this happened. This volume offers readers theoretical tools that will help them to make better sense of those exciting phenomena and other rising cultural flows within Asia and their relevance to the global cultural economy.

Sexism in Tommy

Wiseau's film "The Room" and its YouTube reviews, 2018-05-02 Essay from the year 2017 in the subject Gender Studies grade 20 University of Vienna Anglistik Amerikanistik language English abstract In this paper the role of gender in the reception of Tommy Wiseau's film The Room will be discussed. In particular I will analyse how four YouTube review channels react to how the female main character Lisa is treated by the film. The focus of my research will be the comic value these reviewers find in Lisa's actions with the goal of revealing some of their sexist or misogynistic assumptions about gender by what they find humorous. In order to do this firstly I will discuss and describe the main scenes I will look at more closely and

explain why they seem problematic from a gender humour and film studies perspective. The first scene this paper focuses on shows a conversation where Lisa tells her mother that Johnny hit her. In the second scene a story of a woman that has been beaten is recounted and finally in the last scene Lisa is made responsible for Johnny's death. Secondly I will introduce my chosen YouTube channels CinemaSins Channel Awesome I Hate Everything and FanboyFlicks and then observe how they perceive the chosen scenes and whether they ignore the scenes and Lisa's treatment or not. Additionally I will compare these channels by looking at how they view and describe Lisa in general. As a last step I demonstrate that some of the reviewers I chose ignore the scenes and Lisa's treatment in general. Based on my discoveries I assume to find sexist standards in the majority of the channels especially when they ignore or find humour in scenes in which Lisa is mistreated.

Negative

Campaign Advertising. Which effect does New Media have? Angela Gubser, 2019-05-22 Master's Thesis from the year 2018 in the subject Communications Media and Politics. Politic Communications language English abstract. The research question of this master thesis is how the content of political ads on YouTube and on TV differs with regards to their negativity. In the past few election cycles presidential campaigns have begun to integrate YouTube into existing messaging strategies which traditionally used to rely heavily on television advertising. The goal is to determine whether campaign messages on YouTube should be considered as a complement to traditional means of communication or a surrogate for them. In particular the differing channels are analyzed concerning their content and tone. Thus it should be determined whether the tone of YouTube messages occupy a unique place in modern campaigns distinct from that of television ads. Understanding how politicians use YouTube as compared to older forms of communication is crucial in order to comprehend the full campaign repertoire used by candidates and the possible differences in the types of messages i.e. more positive or negative to which citizens are exposed. In terms of advertising the 2016 presidential election stands out specifically through the fact that advertising spending for television did not exceed spending in 2012. The trend during the last few election cycles has consistently indicated spending to far outpace the prior cycle in terms of dollars spent by the major party candidates. Clinton's final total was far less than Obama's budget in the past two elections. Her spending was almost cut in half when compared to Obama's 404 million U.S. Dollar budget in 2012. When comparing the two campaigns the Clinton campaign vastly outspent the Trump campaign in terms of TV ad buys. Although the Trump campaign made up ground in the final weeks of the campaign it did not nearly reach the level of the Clinton budget in terms of overall spending. By the 2nd November 2016 Clinton had already spent 211.4 million US Dollar on TV ads while Trump had spent only 74 million US Dollar about of third of Clinton's budget.
