Proceedings of the 2025 4th International Conference on Social Sciences and Humanities and Arts (SSHA 2025) Sun Jing,Sun Hefei,Liu Shuli,Ren Xianpin,Cuneyt Birkok,2025-07-22 This is an open access book With the progress of social civilization social science and its research are becoming more and more important Theoretically and practically the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings

At present social science research and its results can hardly meet the needs of social development especially the unscientific evaluation of social science results which has aroused great concern from all walks of life and has produced dirt and questions on social science thus affecting the proper development of social science Max Weber once said that the most important function of social science in modern times is to keep people clear headed and to resist the delusions of prophetic legislators Humanities and arts are the process of perceiving realizing thinking manipulating and expressing objective or subjective objects through capturing and excavating feeling and analyzing integrating and applying or displaying the stage results in the form obtained through feeling seeing hearing smelling touching The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions And by reacting to today's increasingly intricate problems and situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development of society By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc *Building Trust in the Generative Artificial Intelligence Era* Joanna Palisziewicz,Jerzy Gołuchowski,Magdalena Mądra-Sawicka,Kuanchin Chen,2025-06-27

In an era where generative artificial intelligence AI is reshaping industries and daily life trust has become a cornerstone for its successful adoption and application *Building Trust in the Generative Artificial Intelligence Era* Technology Challenges and Innovations explores how trust can be built maintained and evaluated in a world increasingly reliant on AI technologies Designed to be accessible to a broad audience this book blends theoretical insights with practical approaches offering readers a comprehensive understanding of the topic This book is divided into three parts The first part examines the foundations of trust in generative AI highlighting trends and ethical challenges such as greenwashing and remote work dynamics The second part provides actionable frameworks and tools for assessing and enhancing trust focusing on topics like cybersecurity transparency and explainability The final section presents global case studies exploring university students' perceptions of ChatGPT generative AI's applications in European agriculture and its transformative impact on financial systems By addressing both the opportunities and risks of generative AI this book delivers groundbreaking insights for academics professionals and policymakers worldwide It emphasizes practical solutions ensuring readers gain the knowledge needed to navigate the evolving technological landscape and foster trust in transformative AI systems *Spectrum* Prof. Dr. Rajesh G. Konnur ,Dr. Pratisha Kumari ,Dr. Sukhwinder Singh ,2025-02-10 Spectrum 7th Edition marks yet another milestone in the continuum of global academic collaboration fostered through the International Conference on New Frontiers in Engineering Science Law Management Humanities and Social Sciences INFES 7 0 2025 proudly organized by Eudoxia

Research University USA This edition embodies the essence of academic integrity interdisciplinary research and the relentless pursuit of innovative solutions for the challenges of our time Held on January 30th and 31st 2025 INFES 7 0 attracted a diverse spectrum of thinkers scholars scientists legal experts educators engineers social scientists and policy makers who came together to share debate and forge new directions in research and development In a world increasingly shaped by complex socio economic and technological transformations the conference provided a timely forum to explore new perspectives and methodologies across a multitude of disciplines The Spectrum series was initiated to document and disseminate the wealth of knowledge exchanged at each edition of INFES This 7th Edition is a testimony to the vibrancy and rigor of contemporary academic discourse Each paper featured in this volume has undergone thorough peer review and represents a unique voice contributing to the expansion of knowledge across domains Topics range from artificial intelligence and clean energy to inclusive education legal frameworks for emerging technologies women empowerment climate policy and sustainable development showcasing the holistic approach of the conference What makes Spectrum 7th Edition distinct is its emphasis on cross border and cross sector collaboration Researchers from over 30 countries have contributed their insights and the collected works reflect not only theoretical advancements but also practical applications aimed at real world impact Through this synthesis of innovation and applicability the publication reaffirms the role of academia as a cornerstone of global development *Information Systems for Intelligent Systems* Andres Iglesias,Jungpil Shin,Nityesh Bhatt,Amit Joshi,2026-01-01 This book includes selected papers presented at the World Conference on Information Systems for Business Management ISBN 2025 held in Bangkok Thailand on September 24 26 2025 It covers up to date cutting edge research on data science information systems infrastructure and computational systems engineering systems business information systems and smart secure systems
