If you are looking for a proxy provider, you have come to the right place. Luminati offers a variety of different proxies. Some of them are residential, while others are mobile and even a rotation proxies. These proxies have different pricing plans to suit your needs. Read on to find out more.

### Mobile proxies

BrightData is one of the largest proxy services in the world. It offers a huge range of different pricing plans. In addition, it has a reputable customer service. Whether you need help using the service or need information on a specific plan, you can reach out to the company via phone, email, chat or live chat.

The company also provides a free Bright Data plan. This package gives you access to an exclusive IP, a free monthly subscription, and a 10% discount on the purchase of a proxy.

There are also three other BrightData plans, including an annual pay-as-you-go plan. These plans vary depending on how much traffic you'd like to get. With the annual plan, you can select from either the mobile or ISP plans.

### Rotating residential proxies

Rotating residential proxies are a great way to bypass IP blocks. They can also help you get around web-scraping campaigns and CAPTCHAs. Using the right type of rotating proxy can help you achieve the highest level of privacy.

Bright Data (formerly Luminati) offers residential proxies that are designed to help you get around blocked sites. They also have a robust proxy network. You can add multiple IP addresses to your account, and even use their proxy manager to manage your rotation.

Bright Data also has an API, which is a nifty trick. This allows you to create a custom proxy, and it also has an interesting feature that will allow you to send HTTPS requests.
