Cerna, 2024-10-11 Considering that in the linguistic market some translators and interpreters without corresponding university degrees are active it is easy to understand the demand of agencies for quality evidences On the one hand the stated requirements very often don't in any way prove that the agencies do indeed offer the necessary quality and on the other hand must offend qualified linguistics with a university degree Nobody asks a lawyer architect or surgeon for a CV before engaging him for a service Besides agencies try to pay the same lowest rates to any subcontractor and this doesn't make the situation any better Some agencies let non professionals do the work or service required just because they offer best rates This book explains the author's point of view The Linguist ,2006 **Translating Promotional and Advertising Texts** Ira Torresi, 2020-12-29 The translation of promotional and advertising texts requires the application of techniques which although they vary depending on the specific text type are all aimed at preserving their persuasive purpose This often requires in depth cultural adaptation and on occasion thorough rewriting Translating Promotional and Advertising Texts covers the key types of promotional texts including personal business to business institutional business to consumer and advertising With numerous examples from a wide variety of languages and media taken from the author's own professional experience and observations this volume is designed for use as a coursebook for classroom practice or as a handbook for self learning It also provides insight for research into promotional and advertising translation This second updated edition offers entirely new sections on self promotion in social media text analysis and tools for the cross cultural appraisal of promotional texts Revised with new examples a glossary of terms and activities and tasks on the Routledge Translation Studies Portal this is the essential text for students researchers translators and professionals working in copywriting marketing public relations or related areas *The Bible Translator* ,1952 *Very Large Data Bases* ,2005

Translation after Wittgenstein Philip Wilson, 2015-11-19 In this eminently readable study Philip Wilson explores the later writings of Ludwig Wittgenstein and shows how a reading of this philosophy can enable the translation theorist and the practising translator to reflect upon and improve the phenomenon of translation Wittgenstein whilst a key figure in twentieth century philosophy remains peripheral to the field of translation studies and Wilson argues that his later work because it deals with the nature of language and meaning is potentially of great significance and an awareness of this can change translation both literary and non literary Wittgenstein's life and thought is treated in the introduction where it is shown how his methods can be applied to areas outside philosophy The central three chapters of the book survey the reading of the source text for translation the writing of the target text the theorisation of the target text The author demonstrates how tools from Wittgenstein's work can be of use in translation studies the notion of the language game for example helps us to understand meaning by looking at the way that words are used and this can both help us describe translation and suggest ways of translating A wide variety of examples and case studies is given throughout the book from both literary and non literary sources Aimed at translation studies scholars graduate students and researchers this interdisciplinary book will also be of interest to scholars of philosophy and literature
