The Wide World of Coding Jennifer Connor-Smith,2020-04-07 The best part about coding is that anyone with a computer can learn how to do it From education to healthcare to entertainment software touches almost every aspect of twenty first century life Take a high level perspective on the types of people who

create that software including many jobs that do not involve writing code at all Learn about the software development cycle

and the huge variety of skills developers draw on including psychology mathematics and art to create amazing apps and

programs Explore why diversity is needed to prevent bias in design Learn about the different coding languages and what

they are used for how developers choose a language and tools that simplify coding Jennifer Connor Smith breaks down

stereotypes about coding as a career that is open only to technology obsessed gamers revealing ways people use software to

improve medical care nurture dementia patients promote social justice and more Hands on activities show you how easy it is

to learn to think like a coder The next generation of coders will require diverse teams creativity and ethical codes of conduct to create the best and most successful software Will you be one of them **#Share** Natalie T. Wood,Caroline K.
