**The Making of American Exceptionalism** Kim Voss, 1993 Why has the labor movement in the United States been so weak and politically conservative in comparison to movements in Western Europe Kim Voss rejects traditional interpretations

theories of American exceptionalism which attribute this distinctiveness to inherent characteristics of American society On the contrary she demonstrates the American labor movement had much in common with its English and French counterparts for most of the nineteenth century Only with the collapse of the Knights of Labor the largest American labor organization of the century did the U S movement take a different path How Classes are Made William H. Sewell (Jr.),1986 *Critical Sociology* Steven M. Buechler,2020-08-26

All sociology is implicitly critical because the sociological perspective questions and debunks what common sense takes for granted Some sociology is explicitly critical of how the domination of states corporations the media and other powerful institutions attenuate our potential for living autonomous lives in today s world In Critical Sociology Buechler explores sociology s double critique The book opens with chapters on how to think sociologically an overview of the scientific humanistic and critical schools of sociology and a more detailed exposition of the critical tradition He applies this critical tradition to economics politics and culture to class race and gender to individualism self and identity and to globalization social movements and democracy **Fighting Words** Marc William Steinberg,1999

A key component of social life discourse mediates the processes of class formation and social conflict Drawing on dialogic theory and building on the work of E P Thompson Marc W Steinberg argues for the importance of incorporating discursive analysis into the historical reconstruction of class experience Amending models of collective action he offers new insights on how discourse shapes the dynamics of popular protest To support his thesis he presents studies of two English trade groups in the 1820s cotton spinners from Lancashire factory towns and London silk weavers For each case Steinberg closely examines the labor process industrial organization social life community politics discursive struggles and collective actions By describing how workers shared experiences of exploitation and oppression in their daily lives he shows how discourses of contention were products of struggle and how they framed possibilities for collective action Embracing work in literary theory sociocultural psychology and cultural studies Fighting Words claims a middle ground between postmodern and materialist analyses Routledge Library Editions: Political Geography Various,2021-06-23

From votes to strikes to street violence politics is intrinsically geographical Many of the books in this set originally published between 1964 and 1990 illustrate that the social contexts provided by localities are crucial in defining distinctive political identities and subsequent political activities Proletarians and Protest Michael P. Hanagan,1986-02-21

Research papers on historical development of the urban areas working class and proletarianization during industrialization in Western Europe Latin America and Africa covers relationship between social change in rural areas and rural migration recruitment policies of rubber and coal companies industrial enterprises social class consciousness of industrial workers and coal miners and their political participation etc includes comparisons with Scandinavia Annotated bibliography graphs maps references statistical tables **American Exceptionalism?** Rick Halpern,Jonathan Morris,1997-08-12 The idea that American historical development is different from that of other nations is an old one yet it shows no sign of losing its emotive power Exceptionalism continues to excite beguile

and frustrate students of the American past The essays in this volume explore the ways in which the process of class formation in the United States can be said to be distinctive Focusing upon the impact of liberal political thought race and immigration and the role of the war time state they challenge particularist and nation centred modes of explanation Comparing American historical development with Italian South African and Australian examples the essays reinvigorate a tired debate Adjustments to housing of the working classes A. E. Wood,T. R. Johnson,1908
