If students haven't developed the brain based skills to focus, catch and correct errors, identify cause and effect relationships and more, they can't make sense of lessons. Executive function is the missing link to student achievement. But how can you develop this in the classroom? Bestselling author Nancy Sulla has the answers. She explains how building executive function requires a combination of activities, structures and teacher facilitation strategies aimed at six increasingly complex life skills that should be the goal of any school: conscious control, engagement, collaboration, empowerment, efficacy and leadership. This updated new edition includes information on how and why to build executive function skills in the post-pandemic AI world as well as modifications for English language learners. There are also Efficacy Notebook sections throughout spaces for you to pause and reflect as you're reading. In addition, there are examples across grade levels and templates for your own use. With these powerful tools, you will be inspired, armed and ready to establish a clear framework for building executive function in all your students.
