The book provides ideas for helping children learn about the different purposes of ICT and explores how to use ICT to create to find information to play to shop. My Computer Is Smarter Than Me Michael Dunn, 2025-07-01 Technology is supposed to make life easier but for many it feels like the machines are winning. Computers crash at the worst time, printers refuse to print, Wi-Fi drops without warning and error messages read like ancient riddles. *Help My Computer Is Smarter Than Me* is the no-nonsense survival guide for anyone who has ever wanted to throw their device out the window. Michael Dunn takes readers through the everyday tech struggles most people face from confusing updates to password chaos with humor and plain language. Instead of jargon, he offers digital street smarts, simple checklists and repeatable routines that keep panic at bay. Along the way he explains why technology behaves the way it does and how to keep it working without losing your sanity. This book is not about turning you into an engineer. It is about giving you confidence, patterns you can rely on and the ability to laugh at the absurdity while getting your work done. With this guide in hand you will learn how to tame your devices, dodge common traps and finally feel like you are the one in control.

NPR's Simon Rich returns with a batch of can't-miss stories in which Super Mario turns forty and is forced to take a stock of his life and how messed up it's become. Goliath struggles to control the media narrative in the lead up to his death match against David, a small beloved child. And a long-discarded participation trophy reminisces about the glorious field day in 1993 when he wound up in the arms of a jubilant asthmatic. Simon Rich: high stakes and heartfelt. *Glory Days* mourns the death of youthful innocence and hails the
