

COMPREHENSION STRATEGIES

VISUALIZING

As you read, pause to visualize a concept, character or scene. This can be done through mental imagery and talking. "What do you picture the dog to look like? Why? What does the room look like?" Or, take a moment to draw a picture.

SELF-MONITORING

Teach your child to pause and monitor their reading. Does what I just read make sense? This ability to self-check and self-monitor their reading is so essential!

MAKING CONNECTIONS

What connections can be made with their own experiences? How can they relate what they are reading to their own background knowledge?

SUMMARIZING/RETELLING

Ask your child to retell in his or her own words what just happened.

ASKING QUESTIONS AND MAKING PREDICTIONS

What do you wonder about? What do you want to know more about? What do you need clarification on? And, what predictions can you make?

Literacy Beyond Text Comprehension M. Anne Britt, Jean-François Rouet, Amanda Durik, 2017-07-06 Literacy Beyond Text Comprehension aims to systematically investigate how readers interpret reading tasks within a situation and how that interpretation influences reading behavior and comprehension. Presenting a new model of REading as problem SOLVing RESOLV the authors describe reading comprehension in terms of how a reader adopts goals within a particular situation that then guide what is read when and how. By applying the RESOLV model to a range of reading situations this book provides evidence to suggest that there is no unitary understanding of a task because individuals bring their own goals and characteristics to the situation as such it demonstrates the importance of understanding how a reader e.g. student test taker employee completing a work task represents the context and the specific assignment. Written by internationally recognized learning sciences scholars Literacy Beyond Text Comprehension advances the state of the art in reading research but also seeks to inform a broader range of audiences including those interested in the teaching and the assessment of reading.

Using Technology to Improve Reading and Learning Colin Harrison, Bernadette Dwyer, 2014-04-01 Discover how to effectively use technology to support students literacy development. New classroom uses for technology are introduced in this easy to use resource that help educators enhance students attention engagement creativity and collaboration in reading and learning. Great for struggling readers this book provides strategies for making content area connections and using digital tools to develop reading comprehension.
