Food Retailing and Sustainable Development Laure Lavorata, Leigh Sparks, 2018-10-24 This book is the result of research on major European food retailers and aims to describe and analyze these efforts in order to draw lessons identify problems and opportunities and share knowledge The book can help marketers and researchers to better understand retailers practices in different countries and their impact on consumers

Developing a More Sustainable Retail

Industry Courtney Cunningham, 2011 **Sustainable Regional Retail Centres** Husam Al Waer, Magda Sibley, 2013-04-12

The last two decades have witnessed a rapid increase in retail sector development particularly the growth of regional retail centres The concentration of new retail centres in out of town locations usually occupying green field sites and away from city centre locations has fuelled growing concerns about the threats they pose to cities and towns and the ecological and socio economic conflicts that arise from their uncontrolled growth *Sustainable Regional Retail Centres* is the first book to take a comprehensive look at regional retail centres in relation to environmental social and economic sustainability The book presents an overview of the development of regional shopping centres including a vital analysis of consumer behaviour trends and preferences It defines their main characteristics and related impacts and explores the various sectors involvement in their development and management The sustainability of regional retail centres is questioned and ways to diminish their negative impacts are presented The authors then present an innovative assessment model which can be used to assess

sustainability and incorporate it into plans for future retail centres and into modifications of existing centres Regional shopping centres consist of a complex amalgam of energy consumption existing buildings and transport systems The model presented by the authors is the first system to address the issue of sustainability for regional shopping centres taking into consideration all these factors over the centre's whole lifespan The authors use the model to present case studies of sustainability assessments from out of town retail centres and then describe how the method can be adapted for use internationally and for in town retail centres The book provides an essential tool for designers developers and regulators offering checklists and practical guidelines for the future of shopping centres in terms of function building quality sustainability performance and impact on planning and design issues

Planning for Retail Development Clifford Guy, 2006-10-11 Written by a leading expert in the field this is the first thorough critical review of retail planning policy in Britain including Scotland and Wales It covers recent changes in government policy and guidance and examines retail policy within a broader economic and social context Planning for Retail Development explains key events and debates in the evolution of retail planning policy at central and local government levels since the 1960s and draws contrasts between the 1980s a period in which retail developers were encouraged by central government to expand away from town centres and the more recent emphasis on protection and promotion of town centres as the most appropriate location for new development The book develops a critical evaluation of past and present retail planning policies based upon analyses of retailers objectives and of typical consumer shopping behaviour Relationships between retail planning and wider societal concerns including sustainable development social inclusion and urban regeneration are also examined and analysed and guidelines for future policy objectives and content are drawn

Sustainable Retail Sector Growth Anupam Panigrahi, 2015 For a decade the business sentiment in India has grown considerably centered on the fundamental economic plotting as the business man from India and from other parts of world is taking risk to explore the different business models and the retail sector the age old highest employer is a buzz word for them The organised retail in India has gone many steps ahead making it one of the lucrative sectors for big business houses to take their chance in this sector Though the retail sector no doubt is the biggest and most promising field which can give Indian economy a good boost might face biggest crisis in the future of the basic requirement of the sector will not be given priority Hence for the sustainable and continuous growth of the retail sector there is a need of the government's role in providing adequate infrastructural back up This research paper examines the role of Role of State in Infrastructure Development in Recovering Economy for the Sustainable Growth in Retail Sector In this paper we have used standard differentiation technique where we observed the role of state in infrastructure development for Sustainable Growth of Retail Sector is maximum in a recovering economy

Environmental Planning and Sustainability Susan Buckingham, 1996-06-19 Environmental Planning and Sustainability Edited by Susan Buckingham Hatfield Brunel University College London and Bob Evans South Bank University London Environmental Planning and Sustainability critically assesses the concept of sustainability and the way in which it is used as a basis for environmental planning The book which brings together authors from a wide range of professions and academic disciplines argues that national environmental planning is reactive and ad hoc and calls for a wider ranging refocusing of environmental planning based on reliable and consistent data collection equitable public participation and a well debated understanding of sustainability It also argues that the challenge offered by the United Nations through its Agenda 21 programme and by European policies should result in a re think not only about how we plan to achieve environmental sustainability but also about the contexts in which we should do so Offering a wide range of perspectives on the notion of sustainability and how we should go about achieving it through environmental planning this book makes essential reading for students lecturers and researchers in environmental policy and planning human geography policy studies environmental studies and town planning and for policy makers and practitioners in the field of environmental planning

Sustainable Development and Planning II A. Kungolos, C. A. Brebbia, Élias Beriatis, 2005 In recent years many countries have experienced an increase in spatial problems that has led to planning crises The use of modern planning technologies such as geographical information systems and remote sensing gives us new potential to monitor and prevent environmental degradation Effective strategies for management should consider sustainable development and planning and emphasise the need to handle these matters in an integrated way These volumes contain the contributions presented at the Second International Conference on Sustainable Development and Planning which deal with the following topics City planning Environmental impact assessment Environmental legislation and policy Environmental management Waste management Resources management Geo informatics Transportation Ecosystems analysis protection and remediation Regional planning Rural development A Multidisciplinary approach to territorial
