The Decameron Oxford Worlds Classics:

The Masterpiece Émile Zola, 1999 This is the most autobiographical of the 20 novels in Zola's Rougon Macquart series. It provides an insight into his friendship with Cezanne and presents an account of the turbulent Bohemian world in which the Impressionists came to prominence.

The Prince Niccolò Machiavelli, 1998 The book has been variously described as the first to analyse the role of the political elite as the one which established the independence of politics from theology as an early formulation of the political myth required to galvanize apolitical masses into revolutionary action as a practical rule book containing timeless precepts for the diplomat and most frequently as the handbook of evil. Based upon Machiavelli's first hand experience as an emissary of the Florentine Republic to the courts of Europe. The Prince analyses the often violent means by which political power is seized and retained and the circumstances in which it is lost. Above all it provides a remarkably uncompromising picture of the true nature of power no matter in what era or by whom it is exercised.

The Three Musketeers Alexandre Dumas, 1998 A historical romance. The Three Musketeers tells the story of the early adventures of the young Gascon gentleman D'Artagnan and his three friends from the regiment of the King's Musketeers: Athos, Porthos and Aramis. Under the watchful eye of their patron M. de Treville the four defend the honour of the regiment against the guards of Cardinal Richelieu and the honour of the queen against the machinations of the Cardinal himself as the power struggles of seventeenth century France are vividly played out in the background.

Sir John Hawkwood Stephen Cooper, 2008-10-30 In Florence cathedral hangs a remarkable portrait by Uccello of Sir John Hawkwood the English soldier of fortune who commanded the Florentine army at the age of 70 and earned a formidable reputation as one of the foremost mercenaries of the late middle ages. His life is an amazing story. He rose from modest beginnings in an Essex village fought through the French campaigns of Edward III, went to Italy when he was 40 and played a leading role in ceaseless strife of the city states that dominated that country. His success over so many years in such a brutal and uncertain age was founded on his exceptional skill as a soldier and commander and it is this side of his career that Stephen Cooper explores in this perceptive and highly readable study.

Jacques the Fatalist and His Master Denis Diderot, 1999 Your Jacques is a tasteless mishmash of things that happen, some of them true, others made up, written without style and served up like a dog's breakfast. Jacques the Fatalist is Diderot's answer to the problem of existence. If human beings are determined by their genes and their environment, how can they claim to be free to want or do anything? Where are Jacques and his Master going? Are they simply occupying space, living mechanically until they die, believing erroneously that they are in charge of their Destiny? Diderot intervenes to cheat our expectations of what fiction should be and do and behaves like a provocative, ironic and unfailingly entertaining master of revels who finally shows why Fate is not to be equated with doom. In the introduction to this brilliant new translation David Coward explains the philosophical basis of Diderot's fascination with Fate and shows why Jacques the Fatalist pioneers techniques of fiction which two centuries on novelists still regard as experimental.
