## **The Disunited States:**

**The Disunited States of America** Harry Turtledove, 2011-04-26 In Harry Turtledove's *The Disunited States of America* Justin is having the worst trip ever. He and his mother are Time Traders traveling undercover to different alternate realities of Earth so they can take valuable resources back to their own timeline. In some of these worlds Germany won World War I or the world has been destroyed by nuclear warfare. Justin and his mother are in an America that never became the United States; each state is like a country and many of them are at war with each other. Their mission takes them to Virginia, which is on the verge of bloody violence. With Ohio Beckie is from California and like the rest of her world unaware that Time Traders exist. The only reason she is in small town Virginia is because her grandmother dragged her there to visit old relatives. Beckie is just as horrified by the violence and racism of the alternate Virginia as Justin is, and the two are drawn to one another. But when full fledged war breaks out between the States including a biologically designed plague, will either of them manage to get back home? Forget about home. Will they make it out alive? *The Disunited States* Professor Department of Political Science Ryan D Griffiths, Ryan D. Griffiths, 2025 Given the growing intensity of regionally inflected political polarization in the US, many observers have grimly predicted that a divorce between red and blue America could well happen. Yet how likely is this possibility, and would it really produce a beneficial outcome? In *The Disunited States* Ryan Griffiths shows why an orderly breakup would be nearly impossible given the complexity of America's political geography. A bracing rejoinder to the idea that the peaceful breakup of the US is a plausible outcome, this book establishes why the forces that increasingly divide Americans are unlikely to rip the nation apart and why unity remains the best of all outcomes.

*The Divided States of America* Donald F. Kettl, 2022-03-15 As James Madison led America's effort to write its Constitution, he made two great inventions: the separation of powers and federalism. The first is more famous, but the second was most essential because without federalism there could have been no United States of America. Federalism has always been about setting the balance of power between the federal government and the states, and that's revolved around deciding just how much inequality the country was prepared to accept in exchange for making peace among often warring states. Through the course of its history, the country has moved through a series of phases, some of which put more power into the hands of the federal government and some rested more power in the states. Sometimes this rebalancing led to armed conflict. The Civil War, of course, almost split the nation permanently apart. And sometimes it led to political battles. By the end of the 1960s, however, the country seemed to have settled into a quiet agreement that inequality was a prime national concern that the federal government had the responsibility for addressing it through its own policies, and that the states would serve as administrative agents of that policy. But as that agreement seemed set, federalism drifted from national debate just as the

states began using their administrative role to push in very different directions The result has been a rising tide of inequality with the great invention that helped create the nation increasingly driving it apart **Charles Rovellini** Joseph Rocchietti, 2015-07-07 Excerpt from Charles Rovellini A Drama of the Disunited States of North America The books of Moses seem to have been written by other writers before him This legislator although he was a man of a great mind his laws are not of God The Creator being perfect could not be imperfect in his language nor a tyrant to the Israelites and to other nations of His creation Infernal theologian rulers left to us the histories of seven thousand years Not only millions of innocent and better educated nations than their conquerors must have been annihilated their historical records must have been burned as we know the burned library of Alexandria sciences and arts We the posterity of those selfish rulers we rue the great loss of the past age progress The selfish monsters exterminated even the memory or records of those unfortunate nations And such tyrannical vandalism was perpetrated for wishing to appear themselves the first legislators to their posterity And forced their children to believe they had spoken face to face with God Hence was originated Theocracy Monarchy and Despotism The democratic or republican government being the only government for which God created mankind it will never reach its perfection but from the true philosophy of man free from all religious priestcraft The only monuments of Central America tell us of nations whose generations must have been extinguished The infinity of solar systems do they not tell us that this world had no beginning Had He lived in darkness during his first eternity God could not be God We can conceive our souls still existing into more subtle matter but the Eternal Spirit out of his creation is an absurdity To compare God and his creation with us poor ephemeral insects is nothing else but the foolish comparison of preachers with the chronometer and the watch maker Infinity has no end like the number it is space added to space as eternity is time added to time A certain space or a certain time have a beginning and an end In the infinite space we may imagine a centre at every point and in eternity at every time we can imagine the middle of the first and second eternities During the first eternity I know that my individuality was nothing although I know that my body and mind have been formed from the eternal elements or molecules The annihilation of our soul being too painful to me my hope of the eternal future life is a great consolation for me on this mortal planet But this divine consolation is perverted and taken from me and from the hope of students by ignorant and wily priests blessing the poor of mind and cursing the students of nature About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Disunited States** Thomas H.
