This will help teacher educators acquire an understanding of the dimensions of clinical experiences and develop the ability to implement them in their unique situations. To facilitate this objective, the material included in this book combines significant research findings with current thinking regarding effective practice. This combination provides a base from which participants in clinical experiences can approach this important effort with competence and confidence. Constructivist Methods for Teaching in Diverse Middle-level Classrooms Kenneth T.

Henson, 2004 Constructivist Strategies for Proactive Middle Level Teachers is designed to prepare prospective middle-level teachers for their first classroom experience and to help in-service teachers improve their teaching skills.
