 of novice supervisors negotiating power in the student teaching triad and the low status of clinical teacher education are
 examined Second different pedagogical frameworks for the work of supervision are provided such as care theory teacher
 education for democracy and social justice Finally future directions for field based teacher education are discussed such as a
 call to reconsider where supervision takes place the necessity to develop a pedagogy of supervision 21st century trends
 facing clinical teacher education and the value added by university supervisors to teacher development Each of these
 chapters engage the supervision of student teachers through a mix of research theory and personal stories from the field As
