Jungian Counseling and Play Therapy Rachel McRoberts, 2024-09-12 Jungian Counseling and Play Therapy is both an introduction to Jung's theory and a practical guide to Jungian informed practice. Readers journey through the development of the mental health crisis of the digital age which Jung foresaw and are presented with solutions he suggested that are still being met with resistance despite compelling facts. This book not only advocates for a more widespread integration of Jungian ideas into clinical practice but also for greater acknowledgement of the integrity, creativity, and intersecting identities of clients, professional counselors, and play therapists. Integrating historical theory with contemporary research, this book helps students to weave creative techniques into their online and in-person clinical work. This is an ideal text for a psychodynamic theory or methods class or to support counseling students and supervisors becoming interested in or familiar with the work of Carl Jung.

Humanistic Sandtray Therapy Ryan D. Foster, 2024-11-21 Humanistic Sandtray Therapy: The Definitive Guide to Philosophy, Therapeutic Conditions, and the Real Relationship provides a comprehensive exploration of the underlying theory, necessary skills, and practical applications behind Humanistic Sandtray Therapy (HST) based on a person-centered gestalt model. This book takes a deep dive into a philosophically based system of sandtray therapy in which all elements of the HST approach are provided in great detail, from the nuts and bolts of creating a sandtray and structuring the experience based on client culture and counseling setting to process-oriented issues. Written with a genuine human touch, invaluable materials such as an HST treatment manual and a weblink to videos of HST sessions with real clients are included to assist academics and researchers in designing HST treatment outcome studies.
