Historical Dictionary of Surrealism Keith Aspley, 2010-10-17 Organized and strictly disciplined until the death of its leader Andr Breton in 1966 Surrealism was a broad movement that attracted many adherents After Breton s death its membership entered a state of flux with people constantly being admitted and excluded and the latter often continuing to regard themselves as Surrealists The Surrealist movement was spread over many countries and different art forms including painting sculpture cinema photography music theater and literature P 4 of cover *Reviewing the Reviews: Interpreting the Negative Response to the Blockbuster Exhibition, "Surrealism: Desire Unbound"*. Jennifer Reed, 2007 The goal of this thesis is to provide answers to others like myself who left this exhibition feeling dismayed and wondering exactly what had gone wrong Beyond that I anticipate my suggestions will prove useful to future curators in their efforts to create a successful thematic exhibition I hope this work achieves these ends and that it will ultimately contribute to the development of a new curatorial practice for this type of exhibition Modernism and Close Reading David James, 2020-04-15 The kinship between modernism and close reading has long been taken for granted But for that reason it has also gone unexamined As the archives timeframes and cultural contexts of global modernist studies proliferate the field s rapport with close reading no longer appears self evident or guaranteed even though for countless students studying literary modernism still invariably means studying close reading This authoritative collection of essays illuminates close reading s conceptual institutional and pedagogical genealogies as a means of examining its enduring potential David James brings together a cast of world renowned scholars to offer an account of some of the things we might otherwise know and need to know about the history of modernist theories of reading before then providing a sense of how the futures for critical reading look different in light of the multiple ways in which modernism has been close read Modernism and Close Reading responds to a contemporary climate of unprecedented reconstitution for the field it takes stock of close reading s methodological possibilities in the wake of modernist studies geographical literary historical and interdisciplinary expansions and it shows how the political ethical and aesthetic consequences of attending to matters of form complicate ideological preconceptions about the practice of formalism itself By reassessing the intellectual commitments and institutional conditions that have shaped modernism in criticism as well as in the classroom we are able to ask new questions about close reading that resonate across literary and cultural studies Invigorating that critical venture this volume enriches our vocabulary for addressing close reading s

perpetual development and diversification *Robert Duncan and the Pragmatist Sublime* James Maynard, 2018-05-01 This study examines the theoretical underpinnings of Robert Duncan's poetry and poetics. The author's overriding concern is Duncan's understanding of excess in relation to poetry and the philosophies of Alfred North Whitehead, William James, and John Dewey.

Seeing Out Loud Jerry Saltz, 2003 Literary Nonfiction Art In SEEING OUT LOUD Saltz critically engages with notable works of art by over 100 notable artists ranging from Picasso, Matisse, and Warhol to Matthew Barney, Gerhard Richter, and Chris Ofili. These reviews appeared in the Village Voice between November 1998 and winter 2003. Jerry Saltz is the best informed and hair trigger liveliest of contemporary art critics tracking pleasure and jump starting intelligence on the fly. Jerry's fast takes usually stand up better in retrospect than other people's long views. Peter Schjodahl. Jerry Saltz looks at art from the perspective of the viewer, the ignorant, the lover, and the enemy. His writing is overwhelmingly passionate yet without sentimentality. His words pierce the content and beauty of each work of art to test its endurance in time and memory.

Francesco Bonami, Curator 2003 Venice Biennale **Sexing Political Culture in the History of France , Feminist Auteurs** Geetha Ramanathan, 2006 *Feminist Auteurs* examines a rich and diverse body of work that has received insufficient attention both in film studies and in feminist theory on film. Looking at individual films within the context of feminist film as a genre, Ramanathan examines film from diverse cultural traditions while paying close attention to what might be regarded as feminist in different cultural contexts. The films chosen expand our ideas of feminism, covering as they do film from Africa, Latin America, Europe, Asia, and the US. Full length interpretations of twenty-four films, both older and contemporary, including *Vagabond*, *India Song*, *Bhaji on the Beach*, *Chocolat*, and *Daughters of the Dust*, lay out a complete and powerful framework for reading women's film.

Identity, gender and the performative in Christo and Jeanne-Claude's work Joachim Stark, 2010-12-07 Essay from the year 2006 in the subject Art Installation Action Performance Art. Modern Art grade good. The Open University Department of Art History course. Themes and issues in Contemporary Art History language English abstract. This essay tries to point out that Christo and Jeanne-Claude's work deals with concepts of identity, gender, and the performative ideas which inform a great deal of the art that has been produced since the 1960s. These aspects in the work of the two artists have generally been overlooked, due perhaps to the gigantism of many of their projects realized since the end of the 1960s, like *Wrapped Coast* 1968-69 Australia, *Valley Curtain* 1970-72 USA, *Surrounded Islands* 1980-83 USA, *Pont Neuf Wrapped* 1975-85 France, *Wrapped Reichstag* 1971-1995 Germany, or *The Gates* 2005 USA. Questions of identity, gender, and performance have not really been addressed in interpretations of Christo and Jeanne-Claude's work. But at least since 2002 there are statements by Christo himself which make clear that identity and gender have indeed been on his mind, and that there also was quite early a link to Dada and Surrealism. In this

respect it is certainly relevant that in 1963 Christo met Marcel Duchamp who until 1968 the year of Duchamp's death remained a friend and supporter Christo's wrappings imply the blurring of identities they transform male forms into feminine forms or even try to introduce the impression of the formless a concept developed by George Bataille The performative points in the same direction The concept of performance will have to be modified and enlarged in the case of Christo and Jeanne Claude as their performances are not bound to a specific time and location for instance in a gallery or a theatre The performances often extend over several years or even decades and imply the presence of the artists at numerous different locations Here the aspect of politics comes into view As their environmental installations involve public buildings and or public spaces and often extend over huge distances a considerable number of different interests for instance those of the political authorities private landowners pressure groups the media have to be taken into account Thus political processes serve the aim of realizing a work of art and not the other way round *Blueprint*, 2001 *Alias Man Ray* Mason Klein, Man Ray, George Thomas Baker, Lauren Schell Dickens, Merry A. Foresta, 2009 New York Dadaist Parisien surrealist international portraitist fashion photographer this work considers how the career of Man Ray was shaped by his turn of the century Jewish immigrant experience his lifelong evasion of his past *Surrealism*, 1966 Meret Oppenheim Meret Oppenheim, Nathalie Bäschlin, 2007 In little more than a generation Asia has emerged from centuries of stagnation to become the rising force of the global economy This transformation has been so spectacular that some have called it a miracle How did it happen Taking the reader from the docksides of Korea to the halls of India's finance ministry The Miracle details the courageous decisions and heroic self sacrifice that made Asia's ascent possible Spanning nine countries and probing major historical currents this account illuminates not only Asia's extraordinary economic rise but also how its causes might emancipate the developing world from poverty and guide the developed world to further prosperity Using more than a decade of reporting and analysis Time magazine and former Wall Street Journal reporter Michael Schuman uncovers how outsourcing to Asia began how Asia's most famous companies such as Sony and Honda became global corporations and how technological changes and global economic shifts made Asia's boom possible He reveals the compelling human side to this economic story introducing readers to the political strongmen entrepreneurs and policymakers who made the Miracle a reality This engaging historical narrative brings to life the ideas and actions of a diverse group of Asians dictators and democrats generals and technocrats economists and engineers Some of the characters in the book have captured the global imagination for years such as China's reformer Deng Xiaoping and Sony founder Akio Morita Others are less well known including Park Chung Hee Korea's tightfisted nation builder Liu Chuanzhi the risk taking founder of PC maker Lenovo and Azim Premji the mastermind behind Wipro one of India's technology giants All of them shared a dream to elevate Asia to its proper place of influence in the world and eradicate the poverty around them The Miracle not only offers profound insight into Asia and its increasing wealth and power it also reveals how these seismic shifts continue to reverberate through the global economy The implications of Asia's

economic ascent for the rest of the world are surprising promising and inspiring Readers of The Miracle will gain a deep understanding of Asia s place in the global economy and of their own
