*Survival Guide Jungle* Arcturus Publishing, 2013-09-15 Explains all of the dangers lurking in the jungle including piranha jaguars and killer bees **SAS Jungle Survival** Barry Davies, 2013-01-08 When we think of jungles we often think of a densely forested area with thick foliage this is what is known as a primary jungle But jungles can also include swamps grasslands and cultivated areas Primary jungles can fall into the category of either a tropical rain forest or a deciduous forest depending on the types of trees and plants found growing there A tropical rain forest is typified by having tall trees whose upper branches interlock to form canopies Yet of all the environments in which man has to survive the jungle offers the best chance The SAS have operated in the jungle for years sometimes staying in the forest for months at a time They developed a technique whereby they had two sets of clothing one for daytime use and one for night Just before they went to sleep they would change from their wet clothing which was normally hung under the shelter to dry out In the morning they would change from their dry clothing and put on the wet It is an uncomfortable change but one that guaranteed a good night s sleep in dry clothing The SAS Guide to Jungle Survival will teach the reader to come to terms with the jungle environment understand it and work with it as opposed to fighting it The jungle forest can provide shelter food and water in abundance and this book will show you how If the jungle offers any problems it is with disease and wild animals The SAS Guide to Jungle Survival will show you how to avoid and resist both and come out alive **Jungle Survival Guide** Ruth Owen, 2010 First published in Great Britain in 2010 by TickTock Entertainment Ltd T p verso **The Jungle Survival Manual, 1939-1945** Alan Jeffreys, 2020-01-10 The army guide that taught WWII soldiers how to survive in the jungles and swamps of the tropics During the Second World War Allied soldiers fought to survive not only encounters with the enemy but the landscape they found themselves in Being posted to Southeast Asia and the Pacific to fight the Japanese meant soldiers had to learn to survive in the tropics fighting and living in endless steamy jungle and perilous swamps In this alien environment men had to be able to take care of themselves rather than relying on their unit to supply their needs something that did not come naturally to the many soldiers born and raised in cities To help them the British and US armies produced a number of official training manuals and guides explaining how to identify and fight the Japanese and avoid their deadly punji traps as well as
