Sustainability & Critical Reading and Writing Christian R. Weisser, Jeff Ousborne, 2018-08-30 **Sustainability and the City** Lauren Curtright, Doris Bremm, 2017-07-28 Sustainability and the City Urban Poetics and Politics contributes to third generation discourse on sustainable development by considering through a humanistic lens theories and practices of sustainability in a wide range of urban cultures It demonstrates cities inextricability from discussions on sustainability because not only is the world urbanizing at an unprecedented rate but also cities are primary locations of the circulation of excess capital socioeconomic divisions and hierarchies political resistance friction between human and non human worlds and the confluence of art policy and identity formation in placemaking With essays by scholars working in a variety of fields from architecture to literature to music to sociology this collection maintains that any hope for achieving urban sustainability will require taking seriously the ways in which cities are imagined Efforts to make cities sustainable must fully incorporate the humanities because critical endeavors and creative expressions that fall within the purview of the humanities are vital to closing the conceptual gulf as well as the practical gap between human and non human conservation Even if the environmental humanities embrace cities critics must ask whether coalescing the terms sustainability and city may actually obstruct human action to combat climate change which from some angles seems impending self imposed apocalypse To examine the urban turn Sustainability and the City attends to culture Essays in the first part of the collection approach urban sustainability from various disciplinary vantage points to emphasize history ideology pedagogy and critical theory The second

part of the collection analyzes urban commons on four different continents Finally the collection moves from a diverse set of interpretations of on the ground urban phenomena to a compilation of readings of sustainability in different media and genres sound art drama fiction and film set in or evocative of cities The collection carves out a place for artists and critics to help realize social justice in cities which generate remarkable power but power that is too often and too easily used destructively unfairly and wastefully despite cities unique capacities to inspire and sustain humanity **Climate**

Consciousness and Environmental Activism in Composition Joseph R. Lease, 2020-02-18 Now more than ever in a time when Americans still do not believe that humans are the primary cause of Earth's climate change crisis the burden on educators to inform challenge and motivate students about sustainability is greater than it ever has been On college campuses writing intensive courses often located within First Year or General Education curricula are an ideal place to take up this charge because of the flexibility of their content and the high volume of students that they reach In this volume a varied group of composition instructors with wide ranges and types of experiences provides best practices for bringing issues surrounding climate change into the writing classroom From literature based composition and creative writing courses to design thinking workshops to seminars against sustainability the authors in this volume lay out a multitude of possibilities for blending writing and environmental concerns that fellow practitioners can easily adopt or modify for their own use

Among the many challenges confronting the liberal arts today is a fundamental disconnect between the curricula that many institutions offer and the training that many students need. Discipline specific models of teaching and learning can underprepare students for the kinds of interdisciplinary collaboration that employers now expect. Although aware of these expectations and the need for change, many small colleges and universities have struggled to translate interdisciplinarity into programs and curricula that better serve today's students. Written by faculty engaged in the design and delivery of interdisciplinary courses, programs and experiential learning opportunities in the small college setting, *The Synergistic Classroom* addresses the many ways faculty can leverage their institutions' small size and openness to pedagogical experimentation to overcome the challenges of limited institutional resources and enrollment concerns and better prepare students for life and work in the twenty-first century. Taken together, the contributions in this volume invite reflection on a variety of important issues that attend the work of small college faculty committed to expanding student learning across disciplinary boundaries.

[Food Matters](#) Holly Bauer, 2020-08-13 *Food Matters* explores questions about the seemingly simple concept of food: What is the purpose of food: sustenance, pleasure, health? What political, social, and cultural forces affect our food choices? What does it mean to eat ethically? How does our food system contribute to the climate crisis, and how can we make changes in our eating habits and in food production to protect the planet?
