

GREEN BOOK

A weather map featuring a cold front with a sharp pressure gradient. The map is color-coded to represent temperature, with red and orange indicating high pressure (subsiding air) and green and blue indicating low pressure (rising air). The cold front is marked by a line with a triangle symbol, and a cold air outbreak is shown moving southeastward. Isobars are drawn every 4 millibars, and a grid of latitude and longitude lines is overlaid on the map. A small yellow box in the lower-left corner highlights a specific area of the map.
