Testing Applications on the Web Hung Quoc Nguyen, 2001. Software engineers have developed sophisticated test methodologies that are inadequate for Web-based software. Distributed applications have different performance goals from desktop applications and require networking know-how of the tester. This work introduces the important technologies, testing concepts and techniques needed to effectively run e-business systems. It aims to show readers how to test B2B applications, B2C applications and internal applications. Nguyen also offers advice about the Web application model, servers, browsers, protocols and much more. He provides strategies for test planning and bug tracking as well as effective test techniques for UI tests, security tests, load and stress tests and database tests. A survey of commercial tools is provided along with a sampling of proven test matrices and templates. *Guide to Health Care on the Internet*, 1999. **Spalding's Official Baseball**
