Digital Product Management Boon Kee Lee, 2025-03-31 This book is designed to equip readers with essential knowledge and skills in digital product management. It covers strategic planning and market opportunity offering a clear and accessible guide to navigating the complex world of digital product management in today's fast-changing environment. Chapters explore key topics including understanding digital transformation, identifying market dynamics and developing a comprehensive product strategy. Readers will learn how to conduct market research, build strong business cases and define product positioning. The book also covers practical methods for selecting pricing and packaging strategies as well as crafting a go-to-market plan. Real-world examples such as the growth of Grab in Southeast Asia, the rise of Zoom during the global pandemic and Shopify's role in empowering small businesses globally provide insight into how companies leverage strategic planning and market insights to thrive. The content reflects both current and future trends making it relevant for global markets and today's digitally driven economy. This book is especially useful for product managers, entrepreneurs and business leaders who are keen to refine their strategic planning skills. It offers actionable advice and frameworks that can be applied across various industries, empowering readers to successfully manage digital products and drive business growth.

Electronic Commerce 2018 Efraim Turban, Jon Outland, David King, Jae Kyu Lee, Ting-Peng Liang, Deborah C. Turban, 2017-10-12 This new Edition of *Electronic Commerce* is a complete update of the leading graduate level advanced undergraduate level textbook on the subject. Electronic commerce (EC) describes the manner in which transactions take place over electronic networks, mostly the Internet. It is the process of electronically buying and selling goods, services and information. Certain EC applications such as buying and selling stocks and airline tickets online are reaching maturity, some even exceeding non-Internet trades. However, EC is not just about buying and selling; it also is about electronically communicating, collaborating and discovering information. It is about e-learning, e-government, social networks and much more. EC is having an impact on a significant portion of the world, affecting businesses, professions, trade and, of course, people. The most important developments in EC since 2014 are the continuous phenomenal growth of social networks, especially Facebook, LinkedIn and Instagram, and the trend toward conducting EC with mobile devices. Other major developments are the expansion of EC globally, especially in China, where you can find the world's largest EC company. Much attention is lately being given to smart commerce and the use of AI-based analytics and big data to enhance the field. Finally, some emerging EC business models are changing industries, e.g., the shared economy models of Uber and Airbnb. The 2018 9th edition brings forth the latest trends in e-commerce, including smart commerce, social commerce, social collaboration, shared economy, innovations and mobility.
