## **Weaving Womens Spheres Vietnam Perspectives:**

Weaving Women's Spheres in Vietnam ,2015-11-30 Weaving Women s Spheres in Vietnam offers an in depth study of the status of women in Vietnamese society through an examination of their roles in the context of family religious and local community life from anthropological historical and sociological perspectives Unlike previous works on gender issues relating to Vietnam which focus on women as passive subjects and are restricted to specific spheres such as family this book through a series of case studies and life stories not only examines the suppressive gender structure of the Vietnamese family but also demonstrates Vietnamese women s agency in appropriating that structure and creating alternative spheres for women which they have interwoven in between the dominant realms of public and private spheres in the areas of family religious practice community organizations and politics including their participation in the re construction of national identity Accordingly this volume is expected to become an important new benchmark relating to gender issues in Asian societies especially in the context of so called transitional societies such as China and Vietnam Contributors include Kirsten W Endres Ito Mariko Ito Miho Kato Atsufumi Hy V Luong Miyazawa Chihiro Thien Huong T Ninh Tran Thi Minh Thi **Asian Lives in**

**Anthropological Perspective** Susan Bayly,2024-05-03 Contemporary Asian societies bear the imprint of the experience and afterlives of colonialism revolutionary socialism and religious and secular nationalism in dramatically contrasting ways Asian Lives in Anthropological Perspective draws together essays that demonstrate the role of these far reaching transformations in the shaping of two Asian settings in particular India and Vietnam It traces historical and contemporary realities through a variety of compelling topics including the lived experience of India s caste system and the ethical challenges faced by Vietnamese working women Spirit Possession and Communication in Religious and Cultural Contexts Caroline

Blyth,2020-11-29 Spirit Possession and Communication in Religious and Cultural Contexts explores the phenomenon of spirit possession focusing on the religious and cultural functions it serves as a means of communication Drawing on the multidisciplinary expertise of philosophers anthropologists historians linguists and scholars of religion and the Bible the volume investigates the ways that spirit possession narratives events and rituals are often interwoven around communicative acts both between spiritual and earthly realms and between members of a community This book offers fresh insight into the enduring cultural and religious significance of spirit possession It will be an important resource for scholars from a diverse range of disciplines including religion anthropology history linguistics and philosophy *Female Fighters in Armed Conflict* Béatrice Hendrich,2023-08-22 This book explores the why and the how of women s participation in armed struggle and challenges preconceived assertions about women and violence providing both a historic and a contemporary focus The volume is about women who have participated in armed conflict as members of an armed group trained in military action with different tasks within the conflict The chapters endeavor to make women s own voices heard to discover the untold stories of women as perpetrators and facilitators of military violence and the authors do this through the use of personal

interviews and the study of primary documents The work widens the geographical perspective of feminist security studies to discover in what ways the historical political and social context has motivated the women to participate in military action and presents new case study data from Germany Ukraine Turkey Israel Palestine Cameroon India the Philippines Vietnam and Latin America Temporally the chapters cover almost two centuries from the late 19th century to the present day touching upon a wide variety of examples of armed conflict from wars of independence to the Second World War Bringing together approaches from politics history anthropology and area studies the chapters are informed by the fundamental insights of feminist research and address such pivotal questions as hegemonic masculinity in the armed forces and the relation between women s armed violence and female agency This book will be of much interest to students and researchers in gender and security studies armed conflict and history

*Rural Life in Late Socialism* ,2023-08-28 China Laos and Vietnam are three of a handful of late socialist countries where capitalist economics rubs up against party state politics In these countries sweeping processes of change open up new vistas of opportunity and imaginaries of the future alongside much uncertainty and anxiety especially for their large rural populations Contributors to this edited volume demonstrate the diverse ways in which rural people build futures in this unique policy landscape and how their aspirations and desires are articulated as projects involving both citizens and the state This produces a politics of development that happens through and around the state as people navigate discourses of betterment to imagine and make new futures at individual and collective levels

*Christianity and Migration* Peter C. Phan,Oxford Editor,2025-10-07 This book essays a not the Christian theology of migration The phenomenon of human migration that is the movement of people to and settlement temporary or permanent in a new area or country its causes and reasons and its historical anthropological social political legal and cultural dimensions have been widely studied and reasonably well understood and the next chapter will discuss them in detail By contrast theology as an academic discipline seems least capable of illuminating this human phenomenon It appears to most people outside the church and its educational institutions to be at best an esoteric subject and at worst a convoluted and useless mumbo jumbo especially when liberally sprinkled with Greek and Latin phrases Why not leave the study of migration to scholars in history sociology anthropology economics politics and law who albeit no less infected with highfalutin language than theologians do at least try to offer practical policies and effective strategies either for or against immigration Provided by publisher
