**Muslim Europe** Gavin Murray-Miller, 2024-12-15 Europe and the Islamic world have shared a long and conflicted history From the Middle Ages to the global War on Terror the image of two civilizations perpetually at war has endured However a closer look at the past suggests this was not always the case Muslim Europe follows the lives of imperialists journalists and Muslim activists who attempted to challenge the idea of two opposing

civilizations locked in eternal conflict Rich in detail it tells the stories of English officials who once declared Britain the greatest Muslim power on the face of the earth and recounts the extraordinary political campaign that saw a French Muslim elected to the National Assembly against all odds The age of empire brought Islam into European public life like never before inspiring Muslims on the continent to take to the press and mount political movements guided by desires for greater social recognition In chronicling the forgotten history of Europe's early Muslim communities across empires Muslim Europe proposes a new history for Europe highlighting the contributions made by Muslim subjects and citizens in search of a more just and tolerant society

**Constructing Race on the Borders of Europe** Marsha Morton, Barbara Larson, 2021-03-25 Constructing Race on the Borders of Europe investigates the visual imagery of race construction in Scandinavia Austria Hungary Germany and Russia It covers a period when historic disciplines of ethnography and anthropology were expanding and theorists of race were debating competing conceptions of biological geographic linguistic and cultural determinants Beginning in 1850 and extending into the early 21st century this book explores how paintings photographs prints and other artistic media engaged with these discourses and shaped visual representations of subordinate ethnic populations and material cultures in countries associated with theorizations of white identity The chapters contribute to postcolonial research by documenting the colonial style treatment of minority groups by exploring the anomalies and complexities that emerge when binary systems are seen from the perspective of the fine and applied arts and by representing the voices of those who produced images or objects that adopted altered or critiqued ethnographic and anthropological information In doing so Constructing Race on the Borders of Europe uncovers instances of unexpected connections establishes the fabricated nature of ethnic identity and challenges the certainties of racial categorization

**Protektion und Souveränität** Wolfgang Manfred Egner, 2018-06-11 Schutz scheint ein archaisches Konzept zu sein das im Widerspruch zu einer internationalen Gemeinschaft aus gleichen souveränen Staaten steht Doch das 19. Jahrhundert in dem der moderne Staat seine entscheidende Prägung erhielt war zugleich das Zeitalter imperialer Schutzrhetorik und Herrschaft Europäische Imperien erstreckten sich über nahezu den gesamten Globus Diese legitimierten ihre Herrschaftsansprüche sowohl gegenüber Beherrschten als auch gegenüber der internationalen Gemeinschaft mit erbrachten Schutzleistungen Zentrale Strategien waren universalistische Ideologien wie die Pax Britannica die Schutz für die Einordnung in ein imperiales System versprachen In den Außenbeziehungen wirkten diese imperialen Schutzvorstellungen auf das Völkerrecht ein und schufen in der Praxis der Diplomatie neue völkerrechtliche Status die den herkömmlichen Vorstellungen einer vollständigen Souveränität widersprachen Die Studie untersucht sowohl wie und warum diese Formen entstanden sind als auch wie durch sie das komplexe Verhältnis von Protektion und Souveränität neu erdacht worden ist Dadurch leistet sie einen Beitrag zur Internationalen Geschichte zur Kolonial- und Imperien-geschichte und zur Geschichte des Völkerrechts

**The Urban Ecologies of Divided Cities** Amira Osman, John Nagle, Sabyasachi Tripathi, 2023-06-12 The book discusses how division affects the fabric of cities and people's

sense of identity and agency and are reflected in physical features architecture and urban planning The question of divided cities represents a complex and multistranded urban Ecology at once both social and spatial it cannot be limited to a single science or discipline such as social or spatial fields This suggests integrated and cross disciplinary understandings as well as integrated or parallel approaches and solutions Urban ecologies of division manifest in multiple forms One of their most palpable expressions is conflict with parallels around the world and often with correlations in the spatial fabric Violence in such contexts is often a surface expression of deeper socio economic or ideological differences Whether as a result of intervention by authority or by dissent between groups a divided city inevitably becomes a place of conflict in various forms and intensity eroding the joy of living and sense of collective belonging to the detriment of all In effect it erodes the collective advantage of being part of a more unified society A city exists in collections of social structures which mutually form a society A divided city implies divided social structures and in consequence a divided society The papers compiled in this book present many case studies of divided cities discussing the different causes of divisions and their effects on societies Some of the causes can be linked to conflicts wars colonialism or legislative political systems In response to the serious challenges resulting from these divisions the book aims to provide opportunities for new approaches and possibilities for new interventions and solutions making it significant to urban planners architects and policymakers

Katherine Arens,2015-10-22 Vienna s Dreams of Europe puts forward a convincing counter narrative to the prevailing story of Austria s place in Europe since the Enlightenment For a millennium Austrian writers have used images of Europe and its hegemonic culture as their political and cultural reference points Yet in discussions of Europe s nation states Austria appears only as an afterthought no matter that its precursor states the Holy Roman Empire the Austrian Empire and Austria Hungary represented a globalized European cultural space outside the dominant paradigm of nationalist colonialism Austrian writers today confront reunited Europe in full acknowledgment of Austro Hungary s multicultural heritage which mixes various nationalities ethnicities and cultural forms including ancestors from the Balkans and beyond Challenging standard accounts of 18th through 20th century European imperial identity construction Vienna s Dreams of Europe introduces a group of Austrian public intellectuals and authors who have since the 18th century construed their own public as European Working in different terms than today s theorist critics of the hegemonic West Katherine Arens posits a political identity resisting two hundred years of European nationalism **Austro-Hungarian Life in Town and Country** Francis H.
